Leetonia, June 13.—(Special.)—The Chicago and New York Limited on the Ft. Wayne was wrecked a mile and a half west of Leetonia about 4 o'clock this morning. Three mail clerks were injured.

The wreck was caused by the breaking of a flange on one of the rear wheels of the tender. The tender and one mail car were thrown off the track and over a 30-foot embankment, landing in a corn field.

Five Pullmans which followed the mail car were derailed, but did not go over.

Three mail clerks, who were in the overturned car, were seriously hurt. They are:

T. J. GRIESZ, of Maximo, bruised about the body, hip hurt and forehead cut.

W. P. BROWN, of Beaver, Pa., badly hurt about the back, most seriously injured.

None of the three are in danger.

Owing to the wreckage, all trains are going round by East Liverpool, over the Cleveland & Pittsburgh.

Considerable excitement was caused by the first rumors to reach town, it being reported that 70 had been killed or injured. Beyond the injured mail clerks, however, no one was hurt, although the passengers were somewhat shaken up.

MINISTERS ASK COUNCIL TO CLOSE ALL SALOONS HERE.

Petition for Passage of Prohibitory Law Presented at the Regular Meeting Held at City Hall Last Evening.

REFERRED TO SPECIAL COMMITTEE COMPOSED OF SMITH, PEACH AND NICE.

The ministerial association of this city and Wellsville last evening asked council to pass a prohibitory ordinance and council appointed a committee to confer with the association to draw up the ordinance.

The petition presented by the ministers as read by Clerk Hanley is as follows:

To the Honorable Council of the City of East Liverpool, O.:

Gentlemen—The ministerial association of East Liverpool and Wellsville, representing the congregations of

which we are pastors and believing the request we make to be in accord with the desire of the large majority of the best citizens of our cities, would respectfully and earnestly petition you to give the city you represent relief from the evils of the liquor traffic by passing a prohibitory ordinance banishing the saloon from our midst, as the laws of the state give you authority to do.

We make this request in the interests of morality and good order, and of the peace and prosperity of our cities, all of which are greatly injured by this traffic.

The evil effects of the saloon, morally, socially and financially are so many and are of such a nature that all the best interests of society demand that the source from which they flow be limited to the utmost extent of the authority of the law making power.

If necessary to present reasons to enforce our petition we would give the following which should have influence with you as councilmen:

First—By far the greatest number of crimes committed in our communities are the direct result of this traffic.

Second—More homes of our people are wrecked and made desolate, more children are deprived of the education of our schools and churches, so necessary to good citizenship, more young men are lured into the formation of habits that not only keep them from becoming good citizens, but make them bad citizens, as a result from this traffic than from any other cause.

Third—The saloon traffic, which we ask you to prohibit, is the direct enemy of all legitimate business. It is a parasite living off the community and giving only untold injury in return. Close the saloons and let the money that goes into them find its way into proper channels of trade and the good results will soon be felt, not only in the homes of the people, but in the legitimate business of our cities.

For these and other reasons we might present we make our request and ask for your early and favorable action.

By order of the association,

CLARK CRAWFORD,

President.

L. F. LAVERTY,

Secretary.

Wellsville, June 11, 1900.

The following communication from Dr. J. C. Taggart accompanied the petition:

Mr. President and Gentlemen of the Council.

In presenting this petition of the ministerial association I am sorry that

I cannot do so in person and speak to you face to face. The necessity of writing out what I have to say will take more of my time than it will of yours to listen to it.

While we who present this petition do not wish to unnecessarily occupy your time or divert your attention from other matters that may claim your consideration, we have no apology to offer for asking that you shall seriously, deliberately, and if need be, patiently consider the matter that we thus bring before you.

There is no point of view from which you may look at this question that does not show it to be one demanding the attention of all good citizens and especially of those who have in any way the well being of the city in their keeping.

First—Look at it from a commercial point of view. It is your duty as councilmen to look after the financial interest of our city, to throw proper safeguards about its legitimate business? Then here is something for you to consider. The traffic we ask you to prohibit and which exists by your sufferance is the enemy of every legitimate business in our city. It is not only an unnecessary business, supplying no real need to our citizens, but it is most wasteful in its nature, destroying the financial strength of our people.

The \$200,000, more or less, that is yearly spent in the saloons of our city is much of it money that ought to go and but for the saloons would go to pay honest debts.

The merchants sometimes have their protective associations to protect their worthy patrons. Those against whom they would thus guard themselves are largely the product of the saloon. The best protection you can give our merchants and not them alone, but hundreds of homes in our city, would be to drive the saloon parasite from our midst.

No revenues that the saloon tax may pay into the treasury of our city can compensate for the waste and injury to trade they are causing and the poverty they are producing.

Think of the thousands of dollars gathered into these saloons from the hard earned wages of our working men that would otherwise go to providing them with homes and to make their homes comfortable, but which now does them no good but only harm and certainly you will see that our city would be much better off financially without the traffic we ask you to prohibit.

Second—We ask you next to look at the matter from the standpoint of morality and good order.

Is it your province, in the position you occupy, to look after the good order of society—to pass ordinances prohibiting and punishing crime? Here is something worthy of your careful consideration.

Certainly it is not necessary to tell you that the most of the disorder, and by far the greater amount of crime committed in our city are the direct results of this traffic. Go to your mayor's docket, look at the work of our police court, note the causes of the arrests made, and you cannot help but be confirmed in what you already

know, that the great majority of the crimes committed in our community are the direct fruit of the saloon traffic.

If it is wiser and better to prevent crime than to punish it after it is committed, if prevention is better than cure, then certainly you need not take long in coming to the conclusion that it would be the part of wisdom and in the interest of good order to shut up the saloons, which are the fruitful source of so much disorder and crime.

Third—Again we ask you to consider this matter from the standpoint of the peace and happiness of our city. Is it your duty to look after the health and the preservation of the lives of your constituents? Then the question we bring for your decision deserves your serious and prompt attention.

We need not tell you that the lives and health of many of our fellow citizens are in jeopardy, yea, are being destroyed, as the direct and inevitable result of this traffic; that many of the homes of our people are suffering from the poverty and misery of drunkenness, and that children are growing up in ignorance and vice because they are deprived of the education and moral culture that would be theirs, but for the existence of this destroying traffic in our midst.

You each one know these things as well as we. Let them come into your minds and influence your action. We charge this traffic, which we ask you to prohibit, with being the destroyer of the peace and happiness of the homes of many of our people. We charge it with being criminal and murderous in its very nature. These are serious charges. We would not make them if we were not fully assured that they are true. The proof of their truthfulness is known to you as well as it is to us. Will you, who know so well the evil nature of this traffic, and who have the right and authority to prohibit it, willingly permit it to continue its work of destruction and death? We ask you to seriously and conscientiously consider this question. By the law of the state, as our petition declares, you have the authority to pass a prohibitory ordinance, therefore, if the traffic continues in our city it does so by your permission.

By their votes the majority of the voting citizens have declared at least three times in the history of our city that they wish the traffic so ruinous and degrading to cease. We feel assured that the earnest desire of the great majority of the women and children, those who often suffer the most severely from its ravages, is in accord with the decision of the voters. So we ask you to comply with our request confident that it will meet with the approval of the majority of those you represent.

For the sake of the true business interests of our city; for the sake of the peace and good order of society; for the sake of the homes and happiness of our people, for the wives, mothers and children that suffer so much from this iniquitous traffic we make our request and urge our plea, with

CAMERON FINED.

\$100 AND COSTS.

Mayor Davidson Had No Mercy on the Thief Who Stole Blind Man's Violin.

SAD HE WAS VERY SORRY

That He Couldn't Send Him to the Penitentiary For a Term of 50 Years.

DETAILS OF THE CAPTURE.

Chief Thompson and Officer Gill did a nice piece of detective work yesterday and as a result John Arthur Cameron, the party who stole J. R. Abel's violin, is now in jail.

Yesterday afternoon Chief Thompson secured a clue to Cameron in Wellsville, and last night they drove to his home near the Brick church in Scotch settlement. They arrived about midnight and found Cameron at home. He tried to get out the window, but Thompson nailed him and ordered him to produce the violin which he did, bringing the bow from one place, the fiddle from another and the tin bucket from under the house. This morning when Cameron faced the mayor he pleaded guilty and the mayor told him he wished to say a few words to him before he sentenced him, and this is what he said: "I have heard of petit larceny and of the man who used to give his children five cents and then take it from them when they went to bed at night, but I never heard of a theft so mean, contemptible and low lived as this of yours. Taking the daily bread from a poor blind man. You call yourself a young man, but you are not worthy the name of man. The sentence of this court is that you pay a fine of \$100 and costs and stand committed to the county jail until fine and costs are paid, and I am only sorry that I cannot give you 50 years in the penitentiary." Just as the mayor had finished Constable Cameron, a brother of the prisoner, walked into the office and asked how his honor had disposed of the case. He was informed and started to say something about it being hard, when he caught sight of the blind man. He asked if that was the man from whom the fiddle had been taken. He was informed that it was and remarked that his brother ought to be sent to the penitentiary.

Cameron will be taken to Lisbon Friday morning in company with Conner, who took the watch from Conner.

COMMISSIONERS COMING.

They Will be Here Friday and Meet the Councilmen on Jennings Avenue.

Last night at council Peach stated that the county commissioners would be here Friday morning and wanted to meet the council on Jennings avenue at 10 o'clock. The council will meet them and final arrangements will be made in regard to the improvements in that part of the city.

GRANDVIEW.

The finest residence addition ever made to East Liverpool is situated on the east side of the Calcutta Road just north of the McKinnon Homestead and within 10 minutes walk of the Diamond.

City Water Mains are laid throughout this addition.

Gas will be piped to this addition in a few weeks.

Street Car Line is being constructed and will run through **Grandview**.

Paved Street and Sidewalks and Electric Light extends from the city to within one block of **Grandview**.

From the numerous inquiries as to when these lots would be placed in the market there is no doubt but that the limited number of lots in the plat now offered the public will be sold in a short time. There are good, solid and substantial reasons for this demand for lots in Grandview--beautiful for situation--magnificent views of the Ohio Valley--above the smoke and fog--within easy reach of the city. Do you want to own your own home? Do you want to quit paying rent? Then Grandview is the place for you to save your rent money and let it buy you a home. See how easy we make it for you.

\$20.00 today and \$2.00 every two weeks buys a lot worth \$200.00.

EXPENSIVE MANURE.

Center Township Farmers Have a Lawsuit Which Results Disastrously for One.

Lisbon, June 13.—(Special)—Thomas Carlisle and Hays McMichael own adjoining farms in the southern part of Center township. Some time ago Carlisle hauled 17 loads of manure from McMichaels farm without McMichael's consent or knowledge. McMichael's farm without McMichael was tried in common pleas court yesterday afternoon. The jury gave McMichael judgment for \$9.27. The judgment, together with the costs and the attorneys' fees, will make the manure cost him about \$6 a load.

Backing It Up.

Salem Herald.

T. M. Stacy, railroad detective for the Pennsylvania railroad, was in Salem last evening in the interest of his company. The company has enacted strict rules that their employes shall not indulge in the use of intoxicants while on duty. It is the intention to rigidly enforce these orders, and it was for the purpose of investigating into the habits of local railroad employes in this respect that Mr. Stacy visited this city. It is understood that no charges were substantiated.

Guilty of Assault.

Yesterday Edwin Murphy appeared in Squire McCarron's court and made affidavit charging Brady Larkins with assault and battery committed on last Sunday. Larkins appeared and pleaded guilty to the charge. The justice imposed a fine of \$3 and costs, which he arranged to pay and was released.

the earnest hope that you may give it your careful, earnest, speedy and favorable consideration.

Yours with respect,

J. C. TAGGART,
President.

When Clerk Hanley had finished reading the communication Smith moved that the petition and communication be received and a committee of three be appointed to confer with the ministers in regard to drawing up an ordinance. Cripps seconded the motion and it carried without a dissenting vote, although some of the members of council didn't vote.

McLane wanted to know if council didn't have an ordinance committee and he thought it strange that the matter should go to a special committee. President Marshall explained that the duty of the ordinance committee was to take charge of ordinances after they have been introduced. He then appointed Smith, Nice and

Peach as the committee to meet the and thought the mover and seconder of the motion should have been on it. Marshall did not change his decision and the committee stood as he had named it.

Youngstown Telegram.

The instructions given the delegates to the Democratic congressional convention to cast their votes for J. H. Morris means that he is to be forced into the fight whether "Barkis is willin'" or not.

Despite the fact that the friends of Mr. Morris appear to be anxious that he make the race for congress, he has given no intimation as to his desires in the matter. When asked concerning the congressional nomination Mr. Morris smiles benignly, looks knowing and says nothing.

About the nearest guess that can be made of Mr. Morris' intentions is that if the nomination comes to him unsolicited and without opposition, he will accept and attempt the hopeless task of trying to overcome the 6,000 Republican majority in the district.

It is understood that Mr. Morris has received assurances from Democratic leaders in both Stark and Columbian counties that he would have no opposition for the nomination in either of these counties provided he was put forward by and had the undivided support of Mahoning county, which the action of Saturday's convention makes effective.

A large number of Mr. Morris' friends are jubilant over the beginning of his boom and are claiming all kinds of strength for their candidate in the district. Others more cautious and conservative admit that they would be surprised to see Mr. Morris accept the nomination in the face of all the odds against his chances of being elected.

From all information that can be secured the situation is that Mr. Morris can have the refusal of the nomination.

Novel Commencement.

Painesville, June 13.—The 26 young women of the senior class of the Painesville high school will graduate next week in washable shirt waists and duck skirts. This is according to an agreement made early this spring.

C., and in order that the expense of the trip should not be a burden, it was decided to dispense with the usual commencement finery. The class while in Washington were received by President McKinley, attended congress and visited the various points of national interest about the city.

The commencement of the class will be known as the Washington commencement, and each essay will be from information collected on the trip. The class is the largest in the history of the school and the commencement will be held two nights, June 14 and 15. Thirty have essays to read.

Women Who Work

Nine out of ten women are afflicted with some of the common ailments known as female diseases. Among women whose employment requires them to stand on their feet or sit in the same position all day, not one in twenty-five escape these troubles. The average feminine constitution cannot, unaided, withstand the strain to which steady, trying work subjects them. The organs of womanhood are so delicate and finely adjusted that the inevitable result of constant standing, lifting, stooping or straining is displacement of vital parts. The disorder is usually slight at first, but soon develops into irregular or painful menstruation, leucorrhœa or falling of the womb. Wine of Cardui is the right remedy for female weakness. As such it is offered to you. Wine of Cardui will not perform miracles, but it will, if taken as directed, insure painless and regular operation of the menstrual function. It will drive out every trace of leucorrhœa, and will so strengthen the ligaments that falling of the womb will be an impossibility. Don't you think it would pay you to try a medicine with such a record as that? You can get a \$1 bottle of Wine of Cardui at any drug store and use it in the privacy of your home.

I have been in bad health with falling of the womb, weak back, nervousness and heart palpitation. At monthly periods I would be in bed suffering great pain. L. COMMENDATORY.

The petition of the ministerial association to council, respecting the saloon and liquor traffic as connected with East Liverpool, will be warmly commended by every man and woman in East Liverpool who loves and advocates the right. will be as to the action of council in the premises. There is a battle on, beyond peradventure, and every thinking and reasoning man will so admit. The saloon is a curse in this city and should be barred from the city limits. Are the people alive to the enormity of the curse? Are they ready to do hot battle against this common foe of the individual, the home, and humanity in general? Don't despise the power of the enemy, the men who are engaged in the liquor traffic on account of the gold they get out of it. Their profits are immense, and they are willing and ready to expend large sums of money in order that their accursed business shall continue to exist and rob manhood, womanhood, childhood and the nation at large. But, remember that God is with the right; and if you, as ministers and instrumentalities of the Master; if you, preachers and laymen and all lovers of clean life and the right, are ready to do your duty and make use of the power given you by God, then the battle will surely be won, and all the cohorts of the devil cannot avail aught against Him. Do your duty.

DON'T ENVY—DON'T FEAR.

Don't envy the seemingly successful evil doer. He is in the hands of a higher power and will be compelled to give an account of his stewardship. His punishment may come, even on this earth; and the rule is that it does come while here below. Don't envy the man or woman who possesses wealth as the result of evil or unfair practices or measures. Don't envy the man or woman who gains wealth through the medium of the liquor traffic, either wholesale or retail, or by the rental of property for saloon purposes. The devil has a chattel mortgage on all such wealth, and he is sure to foreclose in time. Don't fear any man or body of men on earth. Fear God with a holy fear and reverential love. Don't bow down to any man, his position or wealth. Don't truckle to the liquor or saloon element. Let the rum traffic and its cohorts and advocates and backers know that you bid them open defiance, in the name of God and humanity, and let them know that He who is for you is incalculably greater than all who can possibly be against you. Be a full fledged man, God fearing and humanity loving. In the words of a truly great American: "Be sure you're right—then go ahead."

BOUND OVER.

James McCormick Had a Hearing Before the Commissioner at Warren.

Mayor Davidson has returned from Warren. McCormick pleaded guilty to the charge of breaking a mail box when taken before the United States commissioner and was bound over to United States court which meets at Cleveland October 2. Postoffice Inspector Owens stated that he would take McCormick before the United States attorney at once and would try to get his case disposed of before the court met. He was inclined to believe that McCormick would get off with malicious destruction of property.

Last night at the meeting of council Peach stated that he had never seen the Broadway wharf in the condition that it is at present and said he thought the wharf committee should do something. Heddleston said the wharf should be looked after and Marshall suggested that it would be a good idea for the committee to meet at the wharf and look at it.

BROKEN STONE BILL WAS TURNED DOWN

Council Finally Rejects H. S. Rinehart's Claim For \$238 Alleged Due Him.

ENGINEER GEORGE SPEAKS OUT

Says Work Was Not Done to Suit Him and He Will Keep on Protesting Bill.

IT CAUSED A LENGTHY DISPUTE

H. S. Rinehart's bill of \$238 for broken stone used on Lisbon and Jethro streets appeared in council again last night and this time it was rejected.

When the bill was called up Cripps remarked that he didn't think council should be bothered every meeting night with the bill. Attorney Clark was present and stated that Mr. Rinehart desired council to take some action on the bill one way or the other, either turn it down or pay it.

Cripps moved the bill be refused. Smith seconded the motion.

Then Nice wanted to amend the motion by appointing a committee of three to go out and view the place and make a report. Marshall ruled the amendment out of order, inasmuch as it changed the intent of the motion. Then Nice wanted to make his amendment as a substitute for the former motion and stated that his amendment didn't change the intent of the former motion unless the committee made a favorable report. Marshall told him that he couldn't offer any substitute motions, but Nice said he could and if the substitute carried the former motion would be lost. He closed by remarking that there ought to be some way of getting around the motion. Everybody smiled and Marshall said that "substitute" motions didn't go.

Smith began to explain the case when Nice rose to a point of order and said remarks were not called for. Marshall told him that his amendment had been ruled out of order and Smith was in order. Smith in speaking on the subject said Rinehart had put more broken stone in the street than he intended and in digging it up had discovered it. Rinehart said he hadn't dug it up and had been paid for half his work and wanted the other half.

Smith remarked that the engineer had said it wasn't coming to him and Rinehart replied that the engineer had said it wasn't coming to other contractors in the city, but council had paid them. (He referred to the bill of John Ryan for broken stone on Avondale street.)

Marshall said it might be as well for council to appoint a committee, for if they were going to have a lawsuit it would be a good thing to have some evidence.

Solicitor Gaston said it would do no harm to appoint the committee and it seemed a just and fair way to dispose of the bill.

Cripps said it would be a slur on the old council to pay the bill.

The engineer said a committee could not act intelligently in the matter and the street would have to be torn up from one end to the other, and then Rinehart would probably want 15 cents for putting it back. He said that no person knew the condition of that street from one end to the other and couldn't tell by tearing it up in places.

Peach wanted to know if Rinehart didn't know and the engineer replied that he was not there all the time.

The engineer said: "It is just this kind of work that keeps the city from

getting its work done well and helps the contractors out. I would not take \$1 from Rinehart or any person else to let them not do their work well. The engineer and inspector will report if the work is not done right, and this council should stand by them if they want it done that way. I would never o. k. that bill and would protest against paying it."

Somebody called for the vote and the motion to reject the bill carried.

MINOR MATTERS.

Council Discussed and Took Action at the Meeting Held Last Evening.

The fire department answered 11 fire, two ambulance and 39 patrol calls last month. Thirty-seven prisoners were taken to the city jail.

The city solicitor and health officer will each get one of the free phones. The street committee wil look at I. Bentley Pope's plat of his second addition.

Policeman John Hamilton filed his bond with a fidelity company as surety.

Pennsylvania company were ordered to move switch at Second street or the city will do it for them. They will also be told to put gates at the Mulberry and Ralston crossings.

A resolution to improve McKinnon avenue, an ordinance changing the names of certain streets and the ordinance creating the office of street inspector went over on their second reading, as the committees to whom they had been referred were not ready to report.

All members of council were present. The meeting adjourned at 10 minutes to 11 o'clock.

A resolution to improve Rural lane from Jackson street to Franklin street went to the finance committee.

Property owners on McKinnon avenue east of Jennings avenue asked that the street be graded and the contract awarded to John Lutton at 20 cents per cubic yard. The petition was granted with the understanding that all the property owners sign the petition.

M'NICOL SERVES NOTICE

For Council to Remove a Storm Sewer Which Runs Through His Property.

H. A. McNicol, of the Potters' Cooperative company, last evening served notice on council to remove a storm water sewer which runs through his decorating shop. It was stated that the sewer had been there for 11 years and no exception had been taken to it until the present trouble over the street car line arose. The matter was referred to the solicitor and Peach requested that the ordinance which gave the Dresden pottery a right to lay a switch along West Market street be read. The ordinance provides that council may at any time compel the company to take up the switch and have it moved in six months. From gist of the discussion it would seem that council had arrived at the conclusion that two could play at the same game.

SUNDAY TRAINS.

Superintendent Loree Said Not to Have Received Ministerial Protest.

At the meeting of the Ministerial association at Rev. Glasgow's, says the Wellsville Union, the subject of Sunday trains was taken up.

A letter from Superintendent Loree's office some time ago gave assurance to the ministers' association that no Sunday excursions would be run.

It is now stated that Mr. Loree never saw the petition from the ministers and did not write or sign the reply.

The secretary was instructed to write Mr. Loree and call his attention to the excursions run last Sunday and those of some three weeks ago.

New Pastor Selected.

The congregation of the Christian church of Toronto has decided to extend a call to Elder W. L. Seytone, of East Palestine, to assume the pastorate of the church which has been vacant for some time. The congregation was unanimous for the election of Elder Seytone. He was notified of his selection and is expected to respond this week. Elder Seytone delivered two trial sermons and made a very favorable impression.

TRENTON POTTERY NEWS.

What Is Going on and What the Pottery Craft Is Thinking About.

Trenton Times.

Trenton, June 12.—It is reported that a colormaker named Smith will start a new pottery on Meade street in the near future.

The executive committee of the kilnmen's union has endorsed the action of the kilnmen at the East Trenton pottery in refusing to place a kiln there at a reduction of former wages.

Again the old Star pottery, off North Warren street, is in operation. This time in the manufacture of knobs. Albert Kimball is the proprietor and has about a score of hands at work.

There is a great prospect for a rushing business this fall in all lines of pottery manufacture.

The action of the pottery packers in forming a union is receiving the endorsement of the other pottery workers of the city.

It is said to be the concurrent opinion of the manufacturers of pottery, both east and west, that the wage scale will ultimately fail.

Martin Ryan, who returned from East Boston, is running the big jigger machine at the Etruria pottery.

COUNCIL WILL BUILD A BRIDGE

The Right Step Taken In Regard to the Fourth Street Extension.

AFTER A HEATED DISCUSSION

Peach Makes a Caustic Speech and Spoke of the Improving of Farm Lands.

NO OAK CULVERT WANTED.

The question of building a storm sewer over Tanyard run at the extension of Fourth street caused plenty of discussion at council last night.

The matter was brought up by Peach, who stated that if the culvert was built the road could be filled by dirt from cellars and streets and the city would have a good road in a few years. Everybody discussed what kind of a culvert should be built and finally Cripps moved that an oak culvert should be built and said it would last for 10 years. Smith seconded the motion and called attention to the poor condition of the city finances. Nice amended the motion by moving that two stone abutments be built 25 feet apart and iron girders placed across. Peach seconded the motion and went after Cripps and Smith as follows:

"I am surprised at the men who have been advocating the improving of farm lands in the city taking exception to this expenditure of money in one of the oldest wards in the city. They are the very men who have been advocating spending twice that amount where it is not half so badly needed, nor half the amount of people to sustain it. They now cry out in regard to the city finances. That is a good thing, but bear it in mind, gentlemen, when you want something for yourself. It is absurd to put old railroad ties down there and call it a bridge. You may travel that road one or two times a day, but you are not the only people in East Liverpool. Nice's amendment is right."

The balance of the council seemed to think with Mr. Peach, for the amendment carried with only Cripps and Smith voting no. McHenry didn't vote, as he said he wanted to know more about it. The clerk was instructed to advertise for bids.

When the discussion ended Contractor Ryan said that they had to dump the dirt off the streets where the city wanted them to, but they didn't have to make a road. Engineer George said if they dumped the dirt according to his directions it would be all right.

M'LEAN MEN CONTROL.

Ohio Democratic Convention reconvened today.

NOT INCLINED TO TAKE ALL.

Secured control of the party organization for another year—believed they will allow free-for-all contest for the nominations.

COLUMBUS, O., June 13.—The Democratic state convention reconvened here to-day. The McLean men controlled the preliminary meetings of the convention yesterday, but they are evidently playing for harmony more than for places, and may not carry out the same program today. When John R. McLean was the candidate for Governor last year his friends were placed on the state central and executive committees. His friends are in the majority on the new state central committee that was selected last evening and it will select the campaign chairman and members of the state executive committee at a later date.

It was claimed that the McLean men, in securing control of the party organization last night for another year, had all they wanted, and, although they could control everything today, as they also had majorities on the convention committees that there will be a free for all contest for the state ticket and delegates and alternates-at-large to the Kansas City convention. The McLean men were not opposing some aspirants for delegates to Kansas City and for state nominations who heretofore have been strongly opposed to Mr. McLean. This was especially noticeable in their support of George W. Hull, of Toledo, for delegate-at-large, and H. H. McFadden, editor of the Steubenville Gazette, for secretary of state.

But the McLean element did not lose any points while the party organization for another year was under consideration. They lost in the Steubenville district, from which McFadden hails, and in the Newark district, where Colonel Isaac R. Hill has been the state committeeman for about a quarter of a century, and in other districts, but they secured a safe majority of the 21 congressional districts.

The contests from Cleveland and Dayton came before the old state committee yesterday afternoon. The tickets and badges were given to the McLean delegates both from Cuyahoga and Montgomery counties. In the former, the delegation representing Mayor Farley and Mr. Salem was seated over those representing Former Congressman Tom L. Johnson and Harry Wilson. In the latter, Joseph Dowling won over Mr. Shoup, Congressman Brenner, Mayor Lindesmith, Editor James M. Cox and others. As these decisions apply only for seats during the temporary organization, and the contestants say they will carry the fight into the convention, the result may yet be reversed.

The opposition to McLean came from silver extremists, who suspected that their state standard bearer of last year was at one time in touch with some Democratic leaders of the east who were considering the availability of some other candidate than Bryan.

Although documentary and other evidence had been produced to show the most intimate and cordial relations between Bryan and McLean yet the ultra elements were opposed to any one who ever thought of any other candidate but Bryan for president or any modification of the Chicago platform. Even the talk about Dewey for second place on the ticket with Bryan did not fully satisfy them.

The committees on organization decided to make the temporary organization permanent and to limit nominating speeches to five minutes. The committee on resolutions appointed Allen Smalley, M. A. Mycants, W. H. Kinder, C. L. Selzer and S. S. Burtsfield as a sub-committee to draft a platform and report to the full committee today. General A. J. Warner, of Marietta, and Judge E. J. Blandin, of Cleveland, were added to the sub-committee as they were both present with drafts of platforms.

The Warner platform was practically adopted, with the exception of the plank on trusts and that part of Blandin's platform was adopted. Others had submitted many resolutions on state matters and the committee really adopted enough resolutions to make the longest platform on record. The sub-committee was instructed to codify the material into the briefest possible form. There were only three out of the 21 members of the committee against the ratio of 16 to 1, and they were in favor of the Warner platform, which endorses the Chicago platform.

General Warner is president of the

American Bimetallic League and the pioneer advocate of unlimited coinage, but in explaining his platform he said there had been more important issues raised since 1896 than the restoration of silver to its constitutional place in coinage. He spoke of "the mission of the constitution, under an administration of imperialism, militarism, conquest, aggression and corruption" as the greatest danger that ever threatened the country. He also held that the trusts outranked silver now as an issue.

When a resolution was offered endorsing Bryan for the next presidential candidate, there was a chorus of responses that it was not necessary. "We are all for Bryan and for nobody else," continued the respondents, and the resolution was not put to a vote.

With some there is said to have been a feeling that no action should be taken specifically for either place, as it was not thought expedient here to recommend Dewey for vice president, but the general sentiment was that Bryan had already received the popular nomination and endorsement, or instructions for him were unnecessary, as he had passed beyond the point of needing anything of that kind.

The platform denounces the recent monetary act of congress as "a more infamous outrage on the common people than the demonetizing of silver."

It extends the prohibition of trusts to railways, telegraph, express and all other incorporations.

A DAY IN WALL STREET.

Rally in Grangers and Some Pacifics Not Well Maintained—Closing Semi-Stagnant.

NEW YORK, June 13.—The small contingent of professional room traders, whose operations made up Tuesday's stock market, found little difficulty in causing any movement of prices. The prevailing dullness was a characteristic of all the securities markets of the world. Speculation waits on the developments in China and in the money markets in Berlin and Paris. The firm tone in London and Paris on early reports of a British success in the Transvaal caused prices to open higher here, but they quickly declined on realizing and on short sales by the traders, induced by the renewed strength in wheat on the continued drouth in the northwest.

The outlook for the crops was a dominating influence in the market all day, not only in the movement of prices shown, but in the intense dullness and hesitation in the trading. A slight fillip was given in the last hour by the weather bureau's predictions of rain in the northwest. The weather bureau's weekly report of crop conditions, while it reflected the unfavorable condition of spring wheat, as was expected, brought realization in wheat and contrariwise, short covering in stocks.

The rally in the grangers and some Pacifics reached a point or over, but the rise was not well maintained and the closing was semi-stagnant and unsteady at concessions. The prospect of gold exports on Thursday was a depressing influence in the market. No actual arrangements for shipments had been completed, but exchange bankers generally admitted that a profit was possible on the operation.

Two weeks ago loans of the New York banks rose to a figure above any previous record, and last Saturday's loan item was \$12,898,700 in excess of the previous high record of July 8, 1899. The aggregate of loans of national banks of the United States under the call of April 26 was also shown to be larger than ever before. The calmness of the money market in spite of this large volume of credits outstanding and an unusually low proportion of cash reserves is testimony to the soundness of and confidence in the financial situation of this country.

Bonds were lower. Total sales, par value, \$1,090,000.

United States new 4s declined $\frac{1}{4}$ in the bid price.

Chicago Grain and Provisions.

CHICAGO, June 13.—Wheat was a broad and active market Tuesday, touching the highest point of the recent advance under the influence of the northwest drought, but losing most of it later on rain in the afflicted territory. July closed $\frac{1}{4}$ over yesterday. Corn closed $\frac{1}{8}$ higher and oats improved $\frac{1}{8}$. Provisions were weak, closing $\frac{1}{2}$ lower.

Deweys Left Grand Rapids.

GRAND RAPIDS, Mich., June 13.—Admiral Dewey reviewed a magnificent parade here in his honor. Later, with Mrs. Dewey, he was driven to the depot. His train then left. The day's program was marred by the illness of Mrs. Dewey, who was unable to participate in the different functions. The admiral was made a Maccabee, the honorary degree being conferred upon him by Great Commander Major N. S. Boynton.

PAYNE'S RESOLUTION.

Will Be Pressed on Republican Convention.

RHODE ISLANDER IS BEHIND IT.

It Is Not Acceptable, a Substitute Has Been Prepared—Hanna Expected at Philadelphia Today—Convention Hall Reporters Ready to Be Turned Over.

PHILADELPHIA, June 13.—This city is rapidly taking on a national convention aspect. Quite a large number of national committeemen and delegates arrived and the hotels are beginning to fill up. Prominent among the national committeemen on the ground are Frederick S. Gibbs, of New York; Ambassador Powell Clayton, Arkansas; John W. Yerkes, of Kentucky; L. F. Hubbard, of Minnesota.

Nearly all the other members of the national committee were expected today to attend the meeting of the committee today. Chairman Hanna was due today.

The resolution of Henry C. Payne, of Wisconsin, presented at last winter's meeting, and which was withdrawn before it was put to a vote, will again be pressed at today's meeting, but not by its author. Colonel Charles E. Brayton, national committeeman from Rhode Island, who is also chairman of the Rhode Island delegation, will make a strong effort to have the representation changed H. E. Tiepke, his proxy, said last night he would endeavor to carry out the colonel's wishes. Committee Brayton, he said, has been in communication with national committeemen of all the states and his replies include more than twenty who favor the Payne resolution. This resolution provides for four delegates-at-large for each state and an additional delegate for every 10,000 Republican votes or majority fraction thereof based on the returns of the last presidential election.

The Rhode Island delegation has prepared a substitute for the Payne resolution and will present it in place of the Payne resolution, if they find that the sentiment in favor of the latter is not strong enough to put it through the committee. It is claimed that the substitute will meet all the objections of a majority of the national committeemen.

The convention hall probably will be formally transferred to the national committee this afternoon, although the sergeant at arms will not assume absolute control of the hall until Saturday, or probably Monday morning. Invitations have been extended by the citizens' convention committee to Senator Hanna, the members of the national committee and a number of invited guests to inspect the hall.

THE VICE PRESIDENTIAL PROBLEM

A Senator, After Leaving White House Said No Selection Had Been Made.

WASHINGTON, June 13.—The president had quite a number of prominent callers before the cabinet meeting. They included Senator Hanna, chairman of the Republican national committee; Senator Allison, of Iowa; Senator Fairbanks, of Indiana; Senator Penrose, of Pennsylvania, and Thomas K. Lowery, of Minnesota, one of the delegates-at-large from his state to the Philadelphia convention.

One of the senators, after he left the White House, said in part:

No one can say with positiveness who the nominee for vice president will be. Secretary Long would make an admirable candidate, but his state is safely Republican and his nomination would avail little from a strategical standpoint. Most Republicans, I think, would prefer to see the nominee chosen from New York, but there are difficulties in the way. Governor Roosevelt's attitude prevents a natural selection. If Cornelius N. Bliss would accept the nomination I think the problem would be settled. He retired to private life from choice for domestic reasons and nothing, I fear, will induce him to re-enter politics.

SCHLEY WOULD NOT SERVE.

Declarer if Elected He Would Not Have Vice Presidency.

PHILADELPHIA, June 13.—The Times today printed a private letter the editor received from Admiral Schley, dated Rio Janeiro, May 15, from which the following extracts were taken:

Your editorials touching the talk of placing me in nomination with Mr. Bryan reflect precisely what my views are. I know nothing of politics nor of political life, and under no circumstances would I allow the use of my name before any convention for any office whatever. I have passed the age when presidential or any other kind of bees worry me. I know nothing of the duties of any political office, and am fully content to live the years yet left me in quiet retirement from the turmoil of any office. I am resolved irrevocably not to accept any nomination if it were tendered, and if, in my absence, I should be elected, I would not serve.

NO CHANGE IN POLICY.

Cabinet Considered Situation In China.

AMERICANS TO BE PROTECTED.

If to Do This There Must Be Joint Action With Other Nations, It Will Be Allowed.—To Look to China For Reparation.

WASHINGTON, June 13.—The cabinet meeting was attended by Secretaries Hay, Hitchcock, Long and Gage and Postmaster General Smith. It was devoted largely to a discussion of the Chinese situation. Secretary Hay laid before the cabinet dispatches from Minister Conger, which indicated that the situation is very critical. Secretary Long had no late dispatches. The steps that have been taken to reinforce Admiral Kempff were gone over, and it was decided to stand by the policy which has been entered upon of pushing measures for the protection of lives and property of American citizens and of acting independently as far as possible.

It may be that in the accomplishment of this result, the forces of the powers will have to act in unison for the protection of all foreign residents in the disturbed districts, but this is to be the extent of the American activity. It is to be confined solely to the protection and safe-guarding of our own interests and those of our citizens. The Chinese government will be looked to, under the general laws of the comity of nations, to restore order and to make such reparation as is proper. From all political schemes in which any of the powers may become involved the United States is to hold aloof. This is the general policy heretofore outlined and it will be adhered to.

The navy department has cabled directly to Rear Admiral Kempff at Taku, to inform him that marine reinforcements have been ordered to him from Manila.

BRITISH MARINES
DEFEATED BOXERS.

Force of 16 Pursued by Chinese Until Reinforcements Arrived—About 40 Boxers Killed.

LONDON, June 13.—Sixteen British marines, reconnoitering in advance of the international column marching to Pekin, fought about 2,000 Boxers Monday. Most of them were armed with spears and swords. A few had firearms, which they handled awkwardly.

The marines retreated, keeping up a running fight for over a mile and killing between 20 and 30 Boxers.

The Boxers pursued the British for some distance. Then, seeing more marines from the train coming to their assistance, Major Johnson's 16 halted and poured a heavy, continuous fire into the crowd, driving them across the front of the reinforcing blue jackets, who punished the Boxers severely with Maxims.

The Boxers fled and the Europeans, following up their success, cleared out two villages. The total loss of the Boxers is estimated at 40 killed and wounded. Seven of their wounded were attended by British surgeons. The British loss was nothing.

JAP OFFICIAL
KILLED BY CHINESE.

Soldiers of Empress' Guard Murdered
Him—Situation Due to Government Treachery.

LONDON, June 13—5:20 a. m.—The Times, in an extra edition, published the following dispatch from Pekin, dated June 12, 2 p. m.:

"The chancellor of the Japanese legation, Sugiyama Akira, while proceeding alone and unprotected on official duty, was brutally murdered by soldiers of Tung Fuh Siang, the favorite bodyguard of the empress, at Manigate (?) railroad station, yesterday."

The foreign reinforcements are daily expected. The present isolated position of Pekin, the destruction of foreign property in the country and the insecurity of life are directly attributable to the treachery of the Chinese government."

White Knocked Out by McGovern.
NEW YORK, June 13.—Terry McGovern fully lived up to his title as feather-weight champion at the Seaside Athletic club, by knocking out Tommy White, the clever Chicago boxer, in

three rounds. The third round was a succession of knock downs for White. After going down for the seventh time, he was so far gone that it was impossible for him to get up again, although he made a game effort.

BOXERS ATTACKED
A CATHOLIC CONVENT.

Officials Evidently Inactive—British Landed More Men at Tien Tsin.

TIEN TSIN, June 13.—One hundred and sixty-three British landed here. An additional 20 British were sent to Feng Shan.

A special train left Tien Tsin for Yang Tsung to bring General Nieh to consult with the viceroy.

Telegraphic communication with Peking was still interrupted.

The Russian warships Petropavlovsky and Komiloff were at Taku Bar, and the Russian torpedo-boats "103" and "107" were in the river Taku. Want of transport prevents the Russians from landing troops. The Russians were very active here.

It was rumored that General Fung Fah Siang, with many thousand troops, is at Feng Tai.

News from Pao Ting Fu was that the Boxers, 6,000 strong, were attacking the Catholic convent there. The situation was critical and the officials were evidently inactive.

The United States warships Nashville and Monocacy were expected at Taku.

BLOEMFONTEIN RETAKEN.

A Boer Official Made Such an Assertion, Also British Defeat at Bloemfontein.

LOURENCO MARQUES, June 13.—The consul for the Transvaal officially announced that the Boers have retaken Bloemfontein. President Steyn, of the Orange Free State, has returned to the capital and reported that the British had sustained a severe defeat at Bloemfontein where there was heavy fighting before Roberts left Johannesburg.

BOERS EVACUATED MAJUBA.

Buller Also Reported Laing's Nek Was Deserted by Them.

LONDON, June 13.—The war office issued the following:

"Buller to the secretary of war:

"JOUBERT'S FARM, June 12—5:05 p. m.—Encamped four miles north of Volksrust. Laing's nek and Majuba were completely evacuated by the Boers last night. General Clery, from Ingogo, is now coming over the nek. I have had to camp here for want of water. A correct list of yesterday's casualties will be sent as soon as received."

CROWN COLONIES IN SOUTH AFRICA.

LONDON, June 13.—It was learned that the government decided upon a plan for the civil settlement of South Africa. The details are kept most secret, but it can safely be said that the Orange river colony and the Transvaal will become crown colonies, the latter probably being renamed the Transvaal colony. Sir Alfred Milner, it is declared, is to be high commissioner in South Africa in spite of the opposition he has incurred.

"Large numbers of natives organized secret society halted there. People very apprehensive. No protection. Want cruiser."

CRANE'S BODY TO BE BROUGHT HOME.

LONDON, June 13.—The body of Stephen Crane, the American novelist, who died June 5 at Baden-Baden, was brought to London by Mrs. Crane, from which it will be sent to the United States next week. The burial will probably take place at Newark, N. J., where the other members of the Crane family are interred.

WASHINGTON, June 13.—In recognition of his services to international journalism during the closing days of the Spanish-American war, the French government, upon the recommendation of Ambassador Cambon, conferred membership in the French Academy of Beaux Arts upon Charles T. Thompson, of The Associated Press staff, in this city.

THE LATEST GOSPEL.

The latest gospel in the world is know thy work and do it.—Carlyle.

MUTILATED MONEY.

SAVE THE FRAGMENTS AND UNCLE SAM WILL REDEEM THEM.

EVEN THE ASHES OF BURNED BILLS ARE SUCCESSFULLY HANDLED BY HIS EXPERTS—SKILLFUL WORK IN THE TREASURY REDEMPTION BUREAU.

One of the most interesting departments in the United States treasury is that devoted to the redemption of mutilated currency. To it are sent all varieties of bills in every conceivable stage of mutilation. It is seldom that the experts cannot decipher the burned crisps or piece together the myriad fragments. The collection is a curious one, changing every day with kaleidoscopic rapidity.

The burning of a note usually brings out its design in a sort of metallic relief upon its surface, and by means of a glass and other implements and also a full and complete knowledge of the intricate designs, no two denominations being alike, on every note issued their face value is learned with incredible dexterity.

Some arrive in fairly good condition, some shrunken and water soaked, others scorched black and twisted out of shape; many are merely thin, tiny black flakes, and in one case now under consideration the evidence consists of a small handful of black powder, which the affiant swears was \$65, accidentally blown into the fire.

Often the mischief has been done by mice, handfuls of the tiniest of pieces attesting the evil ways of the rodent. Babies are another source of trouble, maniacs, victims of drunken frenzy, plowshares, sawmills—in fact, the strangest and most unheard of accidents are occurring all the time. But in a great majority of cases the money has been burned, for a common practice among people who are their own bankers seems to be the keeping of their funds in unused stoves. A cold day comes, the fire is lighted by some unsuspecting person who "didn't know it was loaded," and the owner suddenly finds that he had money to burn in spite of himself.

In one instance a man having \$7,000 in government bonds, besides notes and gold, kept them in a tomato can which he placed in the elbow of his parlor stove. While he was plowing his fields company arrived, his wife had a fire kindled, and shortly he made the unpleasant discovery that his riches had taken wings. Had he sent the money just as it came from the stove, wrapped in cotton, it might have been saved, but in endeavoring to separate it it became so churned and ground up that the department was able to identify only about \$2,000 for him.

An old woman who had accumulated about \$600 was one night at her devotions, when the candle in some mysterious manner was overturned in the midst of the money. Now, history does not relate why it was there or whether she was returning thanks or paying a bit of homage to Mammon, but at any rate it was destroyed, and as she threw the ashes away and at the instigation of her friends picked them out again there was only enough left to return about \$100 to her.

But much more fortunate were an old couple in the west. The man had been a soldier, and by the long accumulation of years they had saved a little sum, when one day the wife in going to look at it found that the mice had left only a pile of carefully sawed fragments. Almost distracted, she took it to the bank, reporting that the last time she had counted it the sum had been \$275, mostly in tens and twenties.

It was sent here, the tiny bits sorted and arranged as only experts can arrange them, and the necessary three-fifths of every note was found. But the best of all was that instead of \$275 it was discovered that the old people's savings amounted to \$350, which amount was finally sent to them, much to their joy.

Of course the greatest precaution is necessary, and the affidavits must leave no doubt as to the utter and entire destruction of the missing parts of the notes. In one case of this kind a farmer sent from Kansas some greenbacks amounting to \$50, only half of each note being intact. The rest, he declared in a strong affidavit, had been destroyed and also stated in what manner, but on consulting the books it was found that one-half the sum had already been paid to another person who had sent the other halves of the notes from another part of the country. Consequently but \$25 was returned to him.

Thereupon the cashier who had transacted the business for the farmer wrote such an indignant letter, saying the government had impugned the honesty of the claimant and that he would prove him in the right, that the affair was put into the hands of the secret service, the proofs exhibited and the imprudent farmer fined \$1,000 for false swearing.—New York Tribune.

Faith in the Bible.
If our Sunday schools are turned into Bible schools, where the very words of Holy Writ are studied and helps and methods less depended on, those who teach and those who are taught will derive that illumination which ever comes from the entrance of the truth of God. If the whole Church of Christ were to present a united front of such a character instead of one of halting and declining faith in the book they profess to love, an impression might and would be made upon the world. Even were it impossible to induce the visible church to unite in taking such a stand, those who do it would at least be faithful witnesses for the truth, and the result could not be foretold.—Episcopal Recorder.

Origin of the 'Boxers.'

London Mail.

Since the murder of Mr. Brooks, who was hacked to death in a Chinese village, many people have asked, "Who are the Boxers?" The Chinese society of Boxers constitutes in reality a great clan of murderers, estimated to contain over 11,000,000 semi-barbarians, well organized, well armed, and as savage in their fanaticism as the Sudan dervishes.

The society was originally formed with the benificent intention of protecting honest men in China from bandits. It was called To Tao Hwri, which means the Society of the Great Sword, a title which seems to have been changed at a comparatively recent date to the more familiar name which so often appears in our newspapers just now.

When and where the clan originated is not certain. The natives refer to it as an "ancient" society, but that may mean ten years or one hundred. It is agreed that at first its principles were laudable and its work good, but as it became more powerful and increased in numbers many dishonest and designing persons entered it for the prestige and protection it accorded just as dishonest and designing persons ally themselves with influential bodies in other lands today.

These men proved a disturbing element and in many cases directed the efforts of the society against their personal enemies whom they represented as bandits and lawless persons. Terrified by persecution, the innocent victims looked around for protection, and discovered it in the Christian missionaries. It is said that they professed conversion. At any rate, it seems to be clear that the missionaries succeeded in protecting them, and thus intensified the feeling which has always existed in China against the Christian evangelists.

In many districts of Shantung countless Christian homes have been destroyed. German Protestants and German Catholics, English Churchmen and Congregationalists have been alike the victims of shocking outrages.

TERMS OF CONVICTS.

How Inmates of the Ohio Penitentiary Have Their Time Limits Cut Down.

When a convicted man is sentenced to the penitentiary, he sometimes receives a long term of years, but this is not always so severe to him as the impression which is conveyed to the spectators in the court room.

Through the law in Ohio, a prisoner, by good conduct, shortens his term of servitude to an appreciable degree, and the sentence which is usually meted out to offenders, therefore, is not so great a punishment after all. The short term schedule is as follows:

Sentence.	Short Term.
1 year	10 months
2 years	1 year 7 months
3 years	2 years 2 months
4 years	2 years 9 months
5 years	3 years 4 months
6 years	3 years 9 months
7 years	4 years 5 months
8 years	5 years 1 month
9 years	5 years 8 months
10 years	6 years 4 months
15 years	9 years 6 months
20 years	12 years 8 months

ONLY A LAUGH.

Only a laugh, but the joy of the hours in it, Dropping so blithely from out of the gloom, Down from the casement that has the red flowers in it, Flooding with sunshine my poor little room.

Only a laugh, but I know well whose choice it is; Oh, I can guess whose lips that can chaff, Whose is the smiling mouth, whose bubbling voice it is, Putting such perfume in only a laugh!

Only a laugh! My lone life is so shadowy, Tinged with the darkness that solitude grows, Most of the brightness missed, most of its glad away, Most of its tenderness chilled by the snows.

Only a laugh, but so much of the gay in it! Oh, were there love 'twould be sweeter by half! I could forget that my hair has its gray in it! Were it for me more than—only a laugh!

WHERE PRICES ARE STEADY.

The Mountain Dealer Objected to a Fall For Religious Reasons.

"That reminds me indirectly," said the other drummer, "of a yarn I heard lately over in South Carolina told at the expense of a peculiarly guileless old chap who keeps a little crossroads store up in the mountains. Everybody wears boots in that part of the country, and, as the story goes, the old fellow had been buying his stock for many years of a manufacturer in a big city not 1,000 miles away. He paid \$6 a pair for his boots when he first went into business, and the maker had continued charging him the same figure year after year regardless of the fact that the market price had been steadily going down. The old storekeeper, secluded from the world in his mountain home, never dreamed that he was being fleeced and took pride in paying his bills with clocklike punctuality.

"At last, when that grade of boots was quoted at \$2.50, the manufacturer's conscience smote him, and he decided to make amends. So he wrote the country merchant, saying that there had been a considerable decrease in the price of leather, and he was glad to state that he would be able to let him have the last lot of boots he ordered at \$4 a pair. This, he added, was a special low rate, made on account of personal esteem and the fact that he had been a regular customer for such a long period. A few days afterward the conscientious manufacturer was amazed to receive a letter running something like this:

"Dear Sir—It's mighty kind of you all to offer to let me have them boots at \$4, but I wish you would please keep the price the same as what it was before. I have been selling them boots for \$10 a pair for 12 years, and, being a deacon in the church, I don't think it would be right to take no stronger profit. So no more at present from yours truly,

PETER DOE."

Married the Day They Met.

Horace Greeley and Mary Young Cheney were married the first day they met. They had corresponded for some time, a common friend, who was something of a matchmaker, having brought this about. She was all his fancy painted her, but she was much disappointed in his appearance, so much so that when he appeared before her, having proposed and been accepted by letter, she frankly told him that, although she married him, she was not in love with him. Their married life was long and happy, and the loss of his wife was a blow which Greeley did not long survive.

Broken Flange Wheel Throws Tender and Mail Car Over Embankment.

THREE MAIL CLERKS INJURED

Five Pullmans Derailed But Fortunately They Did Not Go Over the Slope.

WRECK CAUSED WILD RUMORS.

Leetonia, June 13.—(Special.)—The Chicago and New York Limited on the Ft. Wayne was wrecked a mile and a half west of Leetonia about 4 o'clock this morning. Three mail clerks were injured.

The wreck was caused by the breaking of a flange on one of the rear wheels of the tender. The tender and one mail car were thrown off the track and over a 30-foot embankment, landing in a corn field.

Five Pullmans which followed the mail car were derailed, but did not go over.

Three mail clerks, who were in the overturned car, were seriously hurt. They are:

JESSE FOX, of Salem, slightly cut on the arm and bruised; taken home to Salem.

T. J. GRIESZ, of Maximo, bruised about the body, hip hurt and forehead cut.

W. P. BROWN, of Beaver, Pa., badly hurt about the back, most seriously injured.

None of the three are in danger.

Owing to the wreckage, all trains are going round by East Liverpool, over the Cleveland & Pittsburg.

Considerable excitement was caused by the first rumors to reach town, it being reported that 70 had been killed or injured. Beyond the injured mail clerks, however, no one was hurt, although the passengers were somewhat shaken up.

MINISTERS ASK COUNCIL TO CLOSE ALL SALOONS HERE.

Petition for Passage of Prohibitory Law Presented at the Regular Meeting Held at City Hall Last Evening.

REFERRED TO SPECIAL COMMITTEE COMPOSED OF SMITH, PEACH AND NICE.

The ministerial association of this city and Wellsville last evening asked council to pass a prohibitory ordinance and council appointed a committee to confer with the association to draw up the ordinance.

The petition presented by the ministers as read by Clerk Hanley is as follows:

To the Honorable Council of the City of East Liverpool, O.:

Gentlemen—The ministerial association of East Liverpool and Wellsville, representing the congregations of

which we are pastors and believing

the request we make to be in accord

with the desire of the large majority

of the best citizens of our cities, would

respectfully and earnestly petition you

to give the city you represent relief

from the evils of the liquor traffic

by passing a prohibitory ordinance

banishing the saloon from our midst,

as the laws of the state give you authority to do.

We make this request in the interests of morality and good order, and of the peace and prosperity of our cities, all of which are greatly injured by this traffic.

The evil effects of the saloon, morally, socially and financially are so many and are of such a nature that all the best interests of society demand that the source from which they flow be limited to the utmost extent of the authority of the law making power.

If necessary to present reasons to enforce our petition we would give the following which should have influence with you as councilmen:

First—By far the greatest number of crimes committed in our communities are the direct result of this traffic.

Second—More homes of our people are wrecked and made desolate, more children are deprived of the education of our schools and churches, so necessary to good citizenship, more young men are lured into the formation of habits that not only keep them from becoming good citizens, but make them bad citizens, as a result from this traffic than from any other cause.

Third—The saloon traffic, which we ask you to prohibit, is the direct enemy of all legitimate business. It is a parasite living off the community and giving only untold injury in return. Close the saloons and let the money that goes into them find its way into proper channels of trade and the good results will soon be felt, not only in the homes of the people, but in the legitimate business of our cities.

For these and other reasons we might present we make our request and ask for your early and favorable action.

By order of the association,
CLARK CRAWFORD,
President.

L. F. LAVERTY,
Secretary.
Wellsville, June 11, 1900.

The following communication from Dr. J. C. Taggart accompanied the petition:

Mr. President and Gentlemen of the Council.

In presenting this petition of the ministerial association I am sorry that

I cannot do so in person and speak to you face to face. The necessity of writing out what I have to say will take more of my time than it will of yours to listen to it.

While we who present this petition do not wish to unnecessarily occupy your time or divert your attention from other matters that may claim your consideration, we have no apology to offer for asking that you shall seriously, deliberately, and if need be, patiently consider the matter that we thus bring before you.

There is no point of view from which you may look at this question that does not show it to be one demanding the attention of all good citizens and especially of those who have in any way the well being of the city in their keeping.

First—Look at it from a commercial point of view. It is your duty as councilmen to look after the financial interest of our city, to throw proper safeguards about its legitimate business?

Then here is something for you to consider. The traffic we ask you to prohibit and which exists by your sufferance is the enemy of every legitimate business in our city. It is not only an unnecessary business, supplying no real need to our citizens, but it is most wasteful in its nature, destroying the financial strength of our people.

The \$200,000, more or less, that is yearly spent in the saloons of our city is much of it money that ought to go and but for the saloons would go to pay honest debts.

The merchants sometimes have their protective associations to protect their worthy patrons. Those against whom they would thus guard themselves are largely the product of the saloon. The best protection you can give our merchants and not them alone, but hundreds of homes in our city, would be to drive the saloon parasite from our midst.

No revenues that the saloon tax may pay into the treasury of our city can compensate for the waste and injury to trade they are causing and the poverty they are producing.

Think of the thousands of dollars gathered into these saloons from the hard earned wages of our working men that would otherwise go to providing them with homes and to make their homes comfortable, but which now does them no good but only harm and certainly you will see that our city would be much better off financially without the traffic we ask you to prohibit.

Second—We ask you next to look at the matter from the standpoint of morality and good order.

Is it your province, in the position you occupy, to look after the good order of society—to pass ordinances prohibiting and punishing crime? Here is something worthy of your careful consideration.

Certainly it is not necessary to tell you that the most of the disorder, and by far the greater amount of crime committed in our city are the direct results of this traffic. Go to your mayor's docket, look at the work of our police court, note the causes of the arrests made, and you cannot help but be confirmed in what you already

Mayor Davidson Had No Mercy on the Thief Who Stole Blind Man's Violin.

SAY HE WAS VERY SORRY

That He Couldn't Send Him to the Penitentiary For a Term of 50 Years.

DETAILS OF THE CAPTURE.

Chief Thompson and Officer Gill did a nice piece of detective work yesterday and as a result John Arthur Cameron, the party who stole J. R. Abel's violin, is now in jail.

Yesterday afternoon Chief Thompson secured a clue to Cameron in Wellsville, and last night they drove to his home near the Brick church in Scotch settlement. They arrived about midnight and found Cameron at home. He tried to get out the window, but Thompson nailed him and ordered him to produce the violin which he did, bringing the bow from one place, the fiddle from another and the tin bucket from under the house. This morning when Cameron faced the mayor he pleaded guilty and the mayor told him he wished to say a few words to him before he sentenced him, and this is what he said: "I have heard of petit larceny and of the man who used to give his children five cents and then take it from them when they went to bed at night, but I never heard of a theft so mean, contemptible and low lived as this of yours. Taking the daily bread from a poor blind man. You call yourself a young man, but you are not worthy the name of man. The sentence of this court is that you pay a fine of \$100 and costs and stand committed to the county jail until fine and costs are paid, and I am only sorry that I cannot give you 50 years in the penitentiary."

Just as the mayor had finished Constable Cameron, a brother of the prisoner, walked into the office and asked how his honor had disposed of the case. He was informed and started to say something about it being hard, when he caught sight of the blind man. He asked if that was the man from whom the fiddle had been taken. He was informed that it was and remarked that his brother ought to be sent to the penitentiary.

Cameron will be taken to Lisbon Friday morning in company with Conner, who took the watch from Conner.

Go to your mayor's docket, look at the work of our police court, note the causes of the arrests made, and you cannot help but be confirmed in what you already

know, that the great majority of the crimes committed in our community are the direct fruit of the saloon traffic.

If it is wiser and better to prevent crime than to punish it after it is committed, if prevention is better than cure, then certainly you need not take long in coming to the conclusion that it would be the part of wisdom and in the interest of good order to shut up the saloons, which are the fruitful source of so much disorder and crime.

Third—Again we ask you to consider this matter from the standpoint of the peace and happiness of our city. Is it your duty to look after the health and the preservation of the lives of your constituents? Then the question we bring for your decision deserves your serious and prompt attention.

We need not tell you that the lives and health of many of our fellow citizens are in jeopardy, yea, are being destroyed, as the direct and inevitable result of this traffic; that many of the homes of our people are suffering from the poverty and misery of drunkenness, and that children are growing up in ignorance and vice because they are deprived of the education and moral culture that would be theirs, but for the existence of this destroying traffic in our midst.

You each one know these things as well as we. Let them come into your minds and influence your action. We charge this traffic, which we ask you to prohibit, with being the destroyer of the peace and happiness of the homes of many of our people. We charge it with being criminal and murderous in its very nature. These are serious charges. We would not make them if we were not fully assured that they are true. The proof of their truthfulness is known to you as well as it is to us. Will you, who know so well the evil nature of this traffic, and who have the right and authority to prohibit it, willingly permit it to continue its work of destruction and death? We ask you to seriously and conscientiously consider this question. By the law of the state, as our petition declares, you have the authority to pass a prohibitory ordinance, therefore, if the traffic continues in our city it does so by your permission.

By their votes the majority of the voting citizens have declared at least three times in the history of our city that they wish the traffic so ruinous and degrading to cease. We feel assured that the earnest desire of the great majority of the women and children, those who often suffer the most severely from its ravages, is in accord with the decision of the voters. So we ask you to comply with our request confident that it will meet with the approval of the majority of those you represent.

For the sake of the true business interests of our city; for the sake of the peace and good order of society; for the sake of the homes and happiness of our people, for the wives, mothers and children that suffer so much from this iniquitous traffic we make our request and urge our plea, with

the earnest hope that you may give it your careful, earnest, speedy and favorable consideration.

Yours with respect,

J. C. TAGGART,
President.

When Clerk Hanley had finished reading the communication Smith moved that the petition and communication be received and a committee of three be appointed to confer with the ministers in regard to drawing up an ordinance. Cripps seconded the motion and it carried without a dissenting vote, although some of the members of council didn't vote.

McLane wanted to know if council didn't have an ordinance committee and he thought it strange that the matter should go to a special committee. President Marshall explained that the duty of the ordinance committee was to take charge of ordinances after they have been introduced.

He then appointed Smith, Nice and

Peach as the committee to meet the ministers.

Nice at once asked to be excused and stated that he would rather some other member would serve on the committee, as he had not given the matter sufficient thought. He also stated that he didn't vote on the motion and didn't think he should assist in drafting an ordinance.

Peach said he felt satisfied, with all due respect to the ministerial association, that it would be better to exempt him from the committee and suggested the name of Cripps, saying that he had more time and would be more in his element than he was. He also stated that he didn't vote on the motion. Nice said if Peach was excused he would have to be and Marshall remarked that the committee was a good one, inasmuch as it had old and new members of council on it. He decided that the committee would stand.

Peach remarked that he guessed he could stand it if Smith could, although it was a hard matter to go up against. Nice still wanted off the committee

and thought the mover and seconder of the motion should have been on it. Marshall did not change his decision and the committee stood as he had named it.

Youngstown Telegram.
The instructions given the delegates to the Democratic congressional convention to cast their votes for J. H. Morris means that he is to be forced into the fight whether "Barkis is willin'" or not.

Despite the fact that the friends of Mr. Morris appear to be anxious that he make the race for congress, he has given no intimation as to his desires in the matter. When asked concerning the congressional nomination Mr. Morris smiles benignly, looks knowing and says nothing.

About the nearest guess that can be made of Mr. Morris' intentions is that if the nomination comes to him unsolicited and without opposition, he will accept and attempt the hopeless task of trying to overcome the 6,000 Republican majority in the district.

It is understood that Mr. Morris has received assurances from Democratic leaders in both Stark and Columbian counties that he would have no opposition for the nomination in either of these counties provided he was put forward by and had the undivided support of Mahoning county, which the action of Saturday's convention makes effective.

A large number of Mr. Morris' friends are jubilant over the beginning of his boom and are claiming all kinds of strength for their candidate in the district. Others more cautious and conservative admit that they would be surprised to see Mr. Morris accept the nomination in the face of all the odds against his chances of being elected.

From all information that can be secured the situation is that Mr. Morris can have the refusal of the nomination.

Novel Commencement.

C., and in order that the expense of the trip should not be a burden, it was decided to dispense with the usual commencement finery. The commencement of the class will be known as the Washington commencement, and each essay will be from information collected on the trip. The class is the largest in the history of the school and the commencement will be held two nights, June 14 and 15. Thirty have essays to read.

Women Who Work

Nine out of ten women are afflicted with some of the common ailments known as female diseases. Among women whose employment requires them to stand on their feet or sit in the same position all day, not one in twenty-five escape these troubles. The average feminine constitution cannot, unaided, withstand the strain to which steady, trying work subjects them. The organs of womanhood are so delicate and finely adjusted that the inevitable result of constant standing, lifting, stooping or straining is displacement of vital parts. The disorder is usually slight at first, but soon develops into irregular or painful menstruation, leucorrhœa or falling of the womb. Wine of Cardui is the right remedy for female weakness. As such it is offered to you. Wine of Cardui will not perform miracles, but it will, if taken as directed, insure painless and regular operation of the menstrual function. It will drive out every trace of leucorrhœa, and will strengthen the ligaments that falling of the womb will be an impossibility. Don't you think it would pay you to try a medicine with such a record as that? You can get a \$1 bottle of Wine of Cardui at any drug store and use it in the privacy of your home.

will be as to the action of council in the premises. There is a battle on, beyond peradventure, and every thinking and reasoning man will so admit. The saloon is a curse in this city and should be barred from the city limits. Are the people alive to the enormity of the curse? Are they ready to do hot battle against this common foe of the individual, the home, and humanity in general? Don't despise the power of the enemy, the men who are engaged in the liquor traffic on account of the gold they get out of it. Their profits are immense, and they are willing and ready to expend large sums of money in order that their accursed business shall continue to exist and rob manhood, womanhood, childhood and the nation at large. But, remember that God is with the right; and if you, as ministers and instrumentalities of the Master; if you, preachers and laymen and all lovers of clean life and the right, are ready to do your duty and make use of the power given you by God, then the battle will surely be won, and all the cohorts of the devil cannot avail aught against Him. Do your duty.

DON'T ENVY—DON'T FEAR.

Don't envy the seemingly successful evil doer. He is in the hands of a higher power and will be compelled to give an account of his stewardship. His punishment may come, even on this earth; and the rule is that it does come while here below. Don't envy the man or woman who possesses wealth as the result of evil or unfair practices or measures. Don't envy the man or woman who gains wealth through the medium of the liquor traffic, either wholesale or retail, or by the rental of property for saloon purposes. The devil has a chattel mortgage on all such wealth, and he is sure to foreclose in time. Don't fear any man or body of men on earth. Fear God with a holy fear and reverential love. Don't bow down to any man, his position or wealth. Don't truckle to the liquor or saloon element. Let the rum traffic and its cohorts and advocates and backers know that you bid them open defiance, in the name of God and humanity, and let them know that He who is for you is incalculably greater than all who can possibly be against you. Be a full-fledged man, God fearing and humanity loving. In the words of a truly great American: "Be sure you're right—then go ahead."

BROKEN STONE BILL WAS TURNED DOWN

Council Finally Rejects H. S. Rinehart's Claim For \$238 Alleged Due Him.

ENGINEER GEORGE SPEAKS OUT

Says Work Was Not Done to Suit Him and He Will Keep on Protesting Bill.

IT CAUSED A LENGTHY DISPUTE

H. S. Rinehart's bill of \$238 for broken stone used on Lisbon and Jethro streets appeared in council again last night and this time it was rejected.

When the bill was called up Cripps remarked that he didn't think council should be bothered every meeting night with the bill. Attorney Clark was present and stated that Mr. Rinehart desired council to take some action on the bill one way or the other, either turn it down or pay it.

Cripps moved the bill be refused. Smith seconded the motion.

Then Nice wanted to amend the motion by appointing a committee of three to go out and view the place and make a report. Marshall ruled the amendment out of order, inasmuch as it changed the intent of the motion.

Then Nice wanted to make his amendment as a substitute for the former motion and stated that his amendment didn't change the intent of the former motion unless the committee made a favorable report.

Marshall told him that he couldn't offer any substitute motions, but Nice said he could and if the substitute carried the former motion would be lost.

He closed by remarking that there ought to be some way of getting around the motion. Everybody smiled and Marshall said that "substitute" motions didn't go.

Smith began to explain the case when Nice rose to a point of order and said remarks were not called for.

Marshall told him that his amendment had been ruled out of order and Smith was in order. Smith in speaking on the subject said Rinehart had put more broken stone in the street than he intended and in digging it up had discovered it. Rinehart said he hadn't dug it up and had been paid for half his work and wanted the other half.

Smith remarked that the engineer had said it wasn't coming to him and Rinehart replied that the engineer had said it wasn't coming to other contractors in the city, but council had paid them. (He referred to the bill of John Ryan for broken stone on Avondale street.)

Marshall said it might be as well for council to appoint a committee, for if they were going to have a lawsuit it would be a good thing to have some evidence.

Solicitor Gaston said it would do no harm to appoint the committee and it seemed a just and fair way to dispose of the bill.

Cripps said it would be a slur on the old council to pay the bill.

The engineer said a committee could not act intelligently in the matter and the street would have to be torn up from one end to the other, and then Rinehart would probably want 15 cents for putting it back. He said that no person knew the condition of that street from one end to the other and couldn't tell by tearing it up in places.

Peach wanted to know if Rinehart didn't know and the engineer replied that he was not there all the time.

The engineer said: "It is just this kind of work that keeps the city from

getting its work done well and helps the contractors out. I would not take \$1 from Rinehart or any person else to let them not do their work well. The engineer and inspector will report if the work is not done right, and this council should stand by them if they want it done that way. I would never o. k. that bill and would protest against paying it."

Somebody called for the vote and the motion to reject the bill carried.

MINOR MATTERS.

Council Discussed and Took Action at the Meeting Held Last Evening.

The fire department answered 11 fire, two ambulance and 39 patrol calls last month. Thirty-seven prisoners were taken to the city jail.

The city solicitor and health officer will each get one of the free phones.

The street committee wil look at L. Bentley Pope's plat of his second addition.

Policeman John Hamilton filed his bond with a fidelity company as surety.

Pennsylvania company were ordered to move switch at Second street or the city will do it for them. They will also be told to put gates at the Mulberry and Ralston crossings.

A resolution to improve McKinnon avenue, an ordinance changing the names of certain streets and the ordinance creating the office of street inspector went over on their second reading, as the committees to whom they had been referred were not ready to report.

All members of council were present. The meeting adjourned at 10 minutes to 11 o'clock.

A resolution to improve Rural lane from Jackson street to Franklin street went to the finance committee.

Property owners on McKinnon avenue east of Jennings avenue asked that the street be graded and the contract awarded to John Lutton at 20 cents per cubic yard. The petition was granted with the understanding that all the property owners sign the petition.

M'NICOL SERVES NOTICE

For Council to Remove a Storm Sewer Which Runs Through His Property.

H. A. McNicol, of the Potters' Cooperative company, last evening served notice on council to remove a storm water sewer which runs through his decorating shop. It was stated that the sewer had been there for 11 years and no exception had been taken to it until the present trouble over the street car line arose. The matter was referred to the solicitor and

Peach requested that the ordinance which gave the Dresden pottery a right to lay a switch along West Market street be read. The ordinance provides that council may at any time compel the company to take up the switch and have it moved in six months. From gist of the discussion it would seem that council had arrived at the conclusion that two could play at the same game.

SUNDAY TRAINS.

Superintendent Loree Said Not to Have Received Ministerial Protest.

At the meeting of the Ministerial association at Rev. Glasgow's, says the Wellsville Union, the subject of Sunday trains was taken up.

A letter from Superintendent Loree's office some time ago gave assurance to the ministers' association that no Sunday excursions would be run.

It is now stated that Mr. Loree never saw the petition from the ministers and did not write or sign the reply.

The secretary was instructed to write Mr. Loree and call his attention to the excursions run last Sunday and those of some three weeks ago.

The winning run in the ninth was scored by Millward after two hands were out on a lucky hit by Trainor. The game was by far the best of the season.

The engineer said: "It is just this kind of work that keeps the city from

getting its work done well and helps the contractors out. I would not take \$1 from Rinehart or any person else to let them not do their work well. The engineer and inspector will report if the work is not done right, and this council should stand by them if they want it done that way. I would never o. k. that bill and would protest against paying it."

Somebody called for the vote and the motion to reject the bill carried.

MINOR MATTERS.

Council Discussed and Took Action at the Meeting Held Last Evening.

The fire department answered 11 fire, two ambulance and 39 patrol calls last month. Thirty-seven prisoners were taken to the city jail.

The city solicitor and health officer will each get one of the free phones.

The street committee wil look at I. Bentley Pope's plat of his second addition.

Policeman John Hamilton filed his bond with a fidelity company as surety.

Pennsylvania company were ordered to move switch at Second street or the city will do it for them. They will also be told to put gates at the Mulberry and Ralston crossings.

A resolution to improve McKinnon avenue, an ordinance changing the names of certain streets and the ordinance creating the office of street inspector went over on their second reading, as the committees to whom they had been referred were not ready to report.

All members of council were present. The meeting adjourned at 10 minutes to 11 o'clock.

A resolution to improve Rural lane from Jackson street to Franklin street went to the finance committee.

Property owners on McKinnon avenue east of Jennings avenue asked that the street be graded and the contract awarded to John Lutton at 20 cents per cubic yard. The petition was granted with the understanding that all the property owners sign the petition.

M'NOL SERVES NOTICE

For Council to Remove a Storm Sewer Which Runs Through His Property.

H. A. McNicol, of the Potters' Cooperative company, last evening served notice on council to remove a storm water sewer which runs through his decorating shop. It was stated that the sewer had been there for 11 years and no exception had been taken to it until the present trouble over the street car line arose. The matter was referred to the solicitor and Peach requested that the ordinance which gave the Dresden pottery a right to lay a switch along West Market street be read. The ordinance provides that council may at any time compel the company to take up the switch and have it moved in six months. From gist of the discussion it would seem that council had arrived at the conclusion that two could play at the same game.

SUNDAY TRAINS.

Superintendent Loree Said Not to Have Received Ministerial Protest.

At the meeting of the Ministerial association at Rev. Glasgow's, says the Wellsville Union, the subject of Sunday trains was taken up.

A letter from Superintendent Loree's office some time ago gave assurance to the ministers' association that no Sunday excursions would be run.

It is now stated that Mr. Loree never saw the petition from the ministers and did not write or sign the reply.

The secretary was instructed to write Mr. Loree and call his attention to the excursions run last Sunday and those of some three weeks ago.

The winning run in the ninth was scored by Millward after two hands were out on a lucky hit by Trainor. The game was by far the best of the season.

The congregation was unanimous for the election of Elder Seytome. He was notified of his selection and is expected to respond this week. Elder Seytome delivered two trial sermons and made a very favorable impression.

Important Decision.

Columbus, June 13.—In an opinion rendered to State Auditor Gilbert Saturday, Attorney General Sheets holds that the owner of property that is assessed for the improvement of a street or other public work, the assessment

to be paid in installments, cannot deduct the unpaid amount, as an offset from the total taxable value of his property in making returns to the assessor. The question came up from Gallia county.

TRENTON POTTERY NEWS.

What Is Going on and What the Pottery Craft Is Thinking About.

Trenton Times.

Trenton, June 12.—It is reported that a colormaker named Smith will start a new pottery on Meade street in the near future.

The executive committee of the kilnmen's union has endorsed the action of the kilnmen at the East Trenton pottery in refusing to place a kiln there at a reduction of former wages.

Again the old Star pottery, off North Warren street, is in operation. This time in the manufacture of knobs. Albert Kimball is the proprietor and has about a score of hands at work.

There is a great prospect for a rushing business this fall in all lines of pottery manufacture.

The action of the pottery packers in forming a union is receiving the endorsement of the other pottery workers of the city.

It is said to be the concurrent opinion of the manufacturers of pottery, both east and west, that the wage scale will ultimately fail.

Martin Ryan, who returned from East Boston, is running the big jigger machine at the Etruria pottery.

M'LEAN MEN CONTROL.

Ohio Democratic Convention
Reconvened Today.

NOT INCLINED TO TAKE ALL.

Secured Control of the Party Organization For Another Year—Believed They Will Allow Free-For-All Contest For the Nominations.

COLUMBUS, O., June 18.—The Democratic state convention reconvened here to-day. The McLean men controlled the preliminary meetings of the convention yesterday, but they are evidently playing for harmony more than for places, and may not carry out the same program today. When John R. McLean was the candidate for Governor last year his friends were placed on the state central and executive committees. His friends are in the majority on the new state central committee that was selected last evening and it will select the campaign chairman and members of the state executive committee at a later date.

It was claimed that the McLean men, in securing control of the party organization last night for another year, had all they wanted, and although they could control everything today, as they also had majorities on the convention committees that there will be a free for all contest for the state ticket and delegates and alternates-at-large to the Kansas City convention. The McLean men were not opposing some aspirants for delegates to Kansas City and for state nominations who heretofore have been strongly opposed to Mr. McLean. This was especially noticeable in their support of George W. Hull, of Toledo, for delegate-at-large, and H. H. McFadden, editor of the Steubenville Gazette, for secretary of state.

But the McLean element did not lose any points while the party organization for another year was under consideration. They lost in the Steubenville district, from which McFadden hails, and in the Newark district, where Colonel Isaac R. Hill has been the state committeeman for about a quarter of a century, and in other districts, but they secured a safe majority of the 21 congressional districts.

The contests from Cleveland and Dayton came before the old state committee yesterday afternoon. The tickets and badges were given to the McLean delegates both from Cuyahoga and Montgomery counties. In the former, the delegation representing Mayor Farley and Mr. Salem was seated over those representing former Congressman Tom L. Johnson and Harry Wilson. In the latter, Joseph Dowling won over Mr. Shoup, Congressman Brenner, Mayor Lindesmith, Editor James M. Cox and others. As these decisions apply only for seats during the temporary organization, and the contestants say they will carry the fight into the convention, the result may yet be reversed.

The opposition to McLean came from silver extremists, who suspected that their state standard bearer of last year was at one time in touch with some Democratic leaders of the east who were considering the availability of some other candidate than Bryan.

Although documentary and other evidence had been produced to show the most intimate and cordial relations between Bryan and McLean yet the ultra elements were opposed to any one who ever thought of any other candidate but Bryan for president or any modification of the Chicago platform. Even the talk about Dewey for second place on the ticket with Bryan did not fully satisfy them.

The committees on organization decided to make the temporary organization permanent and to limit nominating speeches to five minutes. The committee on resolutions appointed Allen Smalley, M. A. Mycrant, W. H. Kinder, C. L. Selzer and S. S. Burtsfield as a sub-committee to draft a platform and report to the full committee today. General A. J. Warner, of Marietta, and Judge E. J. Biandin, of Cleveland, were added to the sub-committee as they were both present with drafts of platforms.

The Warner platform was practically adopted, with the exception of the plank on trusts and that part of Blanck's platform was adopted. Others had submitted many resolutions on state matters and the committee really adopted enough resolutions to make the longest platform on record. The sub-committee was instructed to codify the material into the briefest possible form. There were only three out of the 21 members of the committee against the ratio of 16 to 1, and they were in favor of the Warner platform, which endorses the Chicago platform.

General Warner is president of the

American Bimetallic League and the pioneer advocate of unlimited coinage, but in explaining his platform he said there had been more important issues raised since 1896 than the restoration of silver to its constitutional place in coinage. He spoke of "the mission of the constitution, under an administration of imperialism, militarism, conquest, aggression and corruption" as the greatest danger that ever threatened the country. He also held that the trusts outranked silver now as an issue.

When a resolution was offered endorsing Bryan for the next presidential candidate, there was a chorus of responses that it was not necessary. "We are all for Bryan and for nobody else," continued the respondents, and the resolution was not put to a vote.

With some there is said to have been a feeling that no action should be taken specifically for either place, as it was not thought expedient here to recommend Dewey for vice president, but the general sentiment was that Bryan had already received the popular nomination and endorsement, or instructions for him were unnecessary, as he had passed beyond the point of needing anything of that kind.

The platform denounces the recent monetary act of congress as "a more infamous outrage on the common people than the demonetizing of silver."

It extends the prohibition of trusts to railroads, telegraph, express and all other incorporations.

A DAY IN WALL STREET.

Rally In Grangers and Some Pacifics Not Well Maintained—Closing Semi-Stagnant.

NEW YORK, June 13.—The small contingent of professional room traders, whose operations made up Tuesday's stock market, found little difficulty in causing any movement of prices. The prevailing dullness was a characteristic of all the securities markets of the world. Speculation waits on the developments in China and in the money markets in Berlin and Paris. The firmer tone in London and Paris on early reports of a British success in the Transvaal caused prices to open higher here, but they quickly declined on realizing and on short sales by the traders, induced by the renewed strength in wheat on the continued drouth in the northwest.

The outlook for the crops was a dominating influence in the market all day, not only in the movement of prices shown, but in the intense dullness and hesitation in the trading. A slight fillip was given in the last hour by the weather bureau's predictions of rain in the northwest. The weather bureau's weekly report of crop conditions, while it reflected the unfavorable condition of spring wheat, as was expected, brought realization in wheat and contrariwise, short covering in stocks.

The rally in the grangers and some Pacifics reached a point or over, but the rise was not well maintained and the closing was semi-stagnant and unsteady at concessions. The prospect of gold exports on Thursday was a depressing influence in the market. No actual arrangements for shipments had been completed, but exchange bankers generally admitted that a profit was possible on the operation.

Two weeks ago loans of the New York banks rose to a figure above any previous record, and last Saturday's loan item was \$12,898,700 in excess of the previous high record of July 8, 1899. The aggregate of loans of national banks of the United States under the call of April 26 was also shown to be larger than ever before. The calmness of the money market in spite of this large volume of credits outstanding and an unusually low proportion of cash reserves is testimony to the soundness of and confidence in the financial situation of this country.

Bonds were lower. Total sales, par value, \$1,090,000.

United States new 4s declined $\frac{1}{4}$ in the bid price.

Chicago Grain and Provisions.

CHICAGO, June 13.—Wheat was a broad and active market Tuesday, touching the highest point of the recent advance under the influence of the northwest drought, but losing most of it later on rain in the afflicted territory, July closed $\frac{1}{4}$ c over yesterday. Corn closed $\frac{1}{8}$ to $\frac{1}{4}$ c higher and oats improved $\frac{1}{8}$ c. Provisions were weak, closing $\frac{1}{2}$ to $\frac{1}{4}$ c lower.

Deweys Left Grand Rapids.

GRAND RAPIDS, Mich., June 13.—Admiral Dewey reviewed a magnificent parade here in his honor. Later, with Mrs. Dewey, he was driven to the depot. His train then left. The day's program was marred by the illness of Mrs. Dewey, who was unable to participate in the different functions. The admiral was made a Maccabee, the honorary degree being conferred upon him by Great Commander Major N. S. Boynton.

PAYNE'S RESOLUTION.

Will Be Pressed on Republican Convention.

RHODE ISLANDER IS BEHIND IT.

If It Is Not Acceptable, a Substitute Has Been Prepared—Hanna Expected at Philadelphia Today—Convention Hall Reported Ready to Be Turned Over.

PHILADELPHIA, June 13.—This city is rapidly taking on a national convention aspect. Quite a large number of national committeemen and delegates arrived and the hotels are beginning to fill up. Prominent among the national committeemen on the ground are Frederick S. Gibbs, of New York; Ambassador Powell Clayton, Arkansas; John W. Yerkes, of Kentucky; L. F. Hubbard, of Minnesota.

Nearly all the other members of the national committee were expected today to attend the meeting of the committee today. Chairman Hanna was due today. The resolution of Henry C. Payne, of Wisconsin, presented at last winter's meeting, and which was withdrawn before it was put to a vote, will again be pressed at today's meeting, but not by its author. Colonel Charles E. Brayton, national committeeman from Rhode Island, who is also chairman of the Rhode Island delegation, will make a strong effort to have the representation changed H. E. Tiepke, his proxy, said last night he would endeavor to carry out the colonel's wishes. Committee Brayton, he said, has been in communication with national committeemen of all the states and his replies include more than twenty who favor the Payne resolution. This resolution provides for four delegates at large for each state and an additional delegate for every 10,000 Republican votes or majority fraction thereof based on the returns of the last presidential election.

The Rhode Island delegation has prepared a substitute for the Payne resolution and will present it in place of the Payne resolution, if they find that the sentiment in favor of the latter is not strong enough to put it through the committee. It is claimed that the substitute will meet all the objections of a majority of the national committeemen. The convention hall probably will be formally transferred to the national committee this afternoon, although the sergeant at arms will not assume absolute control of the hall until Saturday, or probably Monday morning. Invitations have been extended by the citizens' convention committee to Senator Hanna, the members of the national committee and a number of invited guests to inspect the hall.

THE VICE PRESIDENTIAL PROBLEM

A Senator, After Leaving White House Said No Selection Had Been Made.

WASHINGTON, June 13.—The president had quite a number of prominent callers before the cabinet meeting. They included Senator Hanna, chairman of the Republican national committee; Senator Allison, of Iowa; Senator Fairbanks, of Indiana; Senator Penrose, of Pennsylvania, and Thomas K. Lowry, of Minnesota, one of the delegates-at-large from his state to the Philadelphia convention. One of the senators, after he left the White House, said in part:

No one can say with positiveness who the nominee for vice president will be. Secretary Long would make an admirable candidate, but his state is safely Republican and his nomination would avail little from a strategical standpoint. Most Republicans, I think, would prefer to see the nominee chosen from New York, but there are difficulties in the way. Governor Roosevelt's attitude prevents a natural selection. If Cornelius N. Bliss would accept the nomination I think the problem would be settled. He retired to private life from choice for domestic reasons and nothing, I fear, will induce him to re-enter politics.

SCHLEY WOULD NOT SERVE.

Declarer if Elected He Would Not Have Vice Presidency.

PHILADELPHIA, June 13.—The Times today printed a private letter the editor received from Admiral Schley, dated Rio Janeiro, May 15, from which the following extracts were taken:

Your editorials touching the talk of placing me in nomination with Mr. Bryan reflect precisely what my views are. I know nothing of politics nor of political life, and under no circumstances would I allow the use of my name before any convention for any office whatever. I have passed the age when presidential or any other kind of bees worry me. I know nothing of the duties of any political office, and am fully content to live the years yet left me in quiet retirement from the turmoil of any office. I am resolved irrevocably not to accept any nomination if it were tendered, and if, in my absence, I should be elected, I would not serve.

Mrs. Beveridge Very Ill.

DANVILLE, N. Y., June 13.—Mrs.

Albert J. Beveridge, wife of the Indiana senator, who has been at a sanitarium here for several months on account of a serious illness, grew worse within the last few days and is in a critical condition. The senator was telegraphed for and arrived at her bedside. There is little hope of recovery.

There were only three out of the 21 members of the committee against the ratio of 16 to 1, and they were in favor of the Warner platform, which endorses the Chicago platform.

General Warner is president of the

American Bimetallic League and the pioneer advocate of unlimited coinage, but in explaining his platform he said there had been more important issues raised since 1896 than the restoration of silver to its constitutional place in coinage. He spoke of "the mission of the constitution, under an administration of imperialism, militarism, conquest, aggression and corruption" as the greatest danger that ever threatened the country. He also held that the trusts outranked silver now as an issue.

When a resolution was offered endorsing Bryan for the next presidential candidate, there was a chorus of responses that it was not necessary. "We are all for Bryan and for nobody else," continued the respondents, and the resolution was not put to a vote.

With some there is said to have been a feeling that no action should be taken specifically for either place, as it was not thought expedient here to recommend Dewey for vice president, but the general sentiment was that Bryan had already received the popular nomination and endorsement, or instructions for him were unnecessary, as he had passed beyond the point of needing anything of that kind.

The platform denounces the recent monetary act of congress as "a more infamous outrage on the common people than the demonetizing of silver."

It extends the prohibition of trusts to railways, telegraph, express and all other incorporations.

A DAY IN WALL STREET.

Rally in Grangers and Some Pacifics Not Well Maintained—Closing Semi-Stagnant.

NEW YORK, June 13.—The small contingent of professional room traders, whose operations made up Tuesday's stock market, found little difficulty in causing any movement of prices. The prevailing dullness was a characteristic of all the securities markets of the world. Speculation waits on the developments in China and in the money markets in Berlin and Paris. The firm tone in London and Paris on early reports of a British success in the Transvaal caused prices to open higher here, but they quickly declined on realizing and on short sales by the traders, induced by the renewed strength in wheat on the continued drouth in the northwest.

The outlook for the crops was a dominating influence in the market all day, not only in the movement of prices shown, but in the intense dullness and hesitation in the trading. A slight fillip was given in the last hour by the weather bureau's predictions of rain in the northwest. The weather bureau's weekly report of crop conditions, while it reflected the unfavorable condition of spring wheat, as was expected, brought realization in wheat and contrariwise, short covering in stocks.

The rally in the grangers and some Pacifics reached a point or over, but the closing was semi-stagnant and unsteady at concessions. The prospect of gold exports on Thursday was a depressing influence in the market. No actual arrangements for shipments had been completed, but exchange bankers generally admitted that a profit was possible on the operation.

Two weeks ago loans of the New York banks rose to a figure above any previous record, and last Saturday's loan item was \$12,898,700 in excess of the previous high record of July 8, 1899. The aggregate of loans of national banks of the United States under the call of April 26 was also shown to be larger than ever before. The calmness of the money market in spite of this large volume of credits outstanding and an unusually low proportion of cash reserves is testimony to the soundness of and confidence in the financial situation of this country.

Bonds were lower. Total sales, par value, \$1,090,000.

United States new 4s declined $\frac{1}{8}$ in the bid price.

Chicago Grain and Provisions.

CHICAGO, June 13.—Wheat was a broad and active market Tuesday, touching the highest point of the recent advance under the influence of the northwest drought, but losing most of it later on rain in the afflicted territory, July closed $\frac{1}{4}$ c over yesterday. Corn closed $\frac{1}{8}$ to $\frac{1}{4}$ c higher and oats improved $\frac{1}{8}$ c. Provisions were weak, closing $\frac{1}{8}$ c to $\frac{1}{2}$ c lower.

Deweys Left Grand Rapids.

GRAND RAPIDS, Mich., June 13.—Admiral Dewey reviewed a magnificent parade here in his honor. Later, with Mrs. Dewey, he was driven to the depot. His train then left. The day's program was marred by the illness of Mrs. Dewey, who was unable to participate in the different functions. The admiral was made a Maccabee, the honorary degree being conferred upon him by Great Commander Major N. S. Boynton.

St. Louis Street Car Strike.

ST. LOUIS, June 13.—There were no important developments in the street car strike situation.

PAYNE'S RESOLUTION.

Will Be Pressed on Republican Convention.

RHODE ISLANDER IS BEHIND IT.

If It Is Not Acceptable, a Substitute Has Been Prepared—Hanna Expected at Philadelphia Today—Convention Hall Reported Ready to Be Turned Over.

PHILADELPHIA, June 13.—This city is rapidly taking on a national convention aspect. Quite a large number of national committeemen and delegates arrived and the hotels are beginning to fill up. Prominent among the national committeemen on the ground are Frederick S. Gibbs, of New York; Ambassador Powell Clayton, Arkansas; John W. Yerkes, of Kentucky; L. F. Hubbard, of Minnesota.

Nearly all the other members of the national committee were expected today to attend the meeting of the committee today. Chairman Hanna was due today.

The resolution of Henry C. Payne, of Wisconsin, presented at last winter's meeting, and which was withdrawn before it was put to a vote, will again be pressed at today's meeting, but not by its author. Colonel Charles E. Brayton, national committeeman from Rhode Island, who is also chairman of the Rhode Island delegation, will make a strong effort to have the representation changed H. E. Tiepke, his proxy, said last night he would endeavor to carry out the colonel's wishes. Committee Brayton, he said, has been in communication with national committeemen of all the states and his replies include more than twenty who favor the Payne resolution. This resolution provides for four delegates at large for each state and an additional delegate for every 10,000 Republican votes or majority fraction thereof based on the returns of the last presidential election.

The Rhode Island delegation has prepared a substitute for the Payne resolution and will present it in place of the Payne resolution, if they find that the sentiment in favor of the latter is not strong enough to put it through the committee. It is claimed that the substitute will meet all the objections of a majority of the national committeemen.

The convention hall probably will be formally transferred to the national committee this afternoon, although the sergeant at arms will not assume absolute control of the hall until Saturday, or probably Monday morning. Invitations have been extended by the citizens' convention committee to Senator Hanna, the members of the national committee and a number of invited guests to inspect the hall.

THE VICE PRESIDENTIAL PROBLEM

A Senator, After Leaving White House Said No Selection Had Been Made.

WASHINGTON, June 13.—The president had quite a number of prominent callers before the cabinet meeting. They included Senator Hanna, chairman of the Republican national committee; Senator Allison, of Iowa; Senator Fairbanks, of Indiana; Senator Penrose, of Pennsylvania, and Thomas K. Lowery, of Minnesota, one of the delegates-at-large from his state to the Philadelphia convention.

One of the senators, after he left the White House, said in part:

No one can say with positiveness who the nominee for vice president will be. Secretary Long would make an admirable candidate, but his state is safely Republican and his nomination would avail little from a strategical standpoint. Most Republicans, I think, would prefer to see the nominee chosen from New York, but there are difficulties in the way. Governor Roosevelt's attitude prevents a natural selection. If Cornelius N. Bliss would accept the nomination I think the problem would be settled. He retired to private life from choice for domestic reasons and nothing, I fear, will induce him to re-enter politics.

SCHLEY WOULD NOT SERVE.

Declaried if Elected He Would Not Have Vice Presidency.

PHILADELPHIA, June 13.—The Times today printed a private letter the editor received from Admiral Schley, dated Rio Janeiro, May 15, from which the following extracts were taken:

Your editorials touching the talk of placing me in nomination with Mr. Bryan reflect precisely what my views are. I know nothing of politics nor of political life, and under no circumstances would I allow the use of my name before any convention for any office whatever. I have passed the age when presidential or any other kind of office worry me. I know nothing of the duties of any political office, and am fully content to live the years yet left me in quiet retirement from the turmoil of any office. I am resolved irrevocably not to accept any nomination if it were tendered, and if, in my absence, I should be elected, I would not serve.

Mrs. Beverage Very Ill.

DANVILLE, N. Y., June 13.—Mrs.

Albert J. Beveridge, wife of the Indiana senator, who has been at a sanitarium here for several months on account of a serious illness, grew worse within the last few days and is in a critical condition. The senator was telegraphed for and arrived at her bedside. There is little hope of recovery.

WISCONSIN DEMOCRAT CONVENTION

Bryan Sentiment Pervaded the Gathering, at Milwaukee.

MILWAUKEE, June 13.—Bryan sentiment pervaded the Democratic state convention held here to elect four delegates-at-large and to ratify the selection of 20 district delegates to the national convention at Kansas City. The following was a list of delegates-at-large chosen to go to the national convention:

David S. Rose, Milwaukee. George B. Hilton, Oshkosh. D. L. Plumer, Wausau. Louis G. Bohmies, Kenosha. Alternates: T. J. Fleming, Milwaukee. George W. Bird, Madison. C. L. Hood, Lacrosse. T. C. Cleany, Platteville.

NO CHANGE IN POLICY.

Cabinet Considered Situation In China.

AMERICANS TO BE PROTECTED.

If to Do This There Must Be Joint Action With Other Nations, It Will Be Allowed—To Look to China For Reparation.

WASHINGTON, June 13.—The cabinet meeting was attended by Secretaries Hay, Hitchcock, Long and Gage and Postmaster General Smith. It was devoted largely to a discussion of the Chinese situation. Secretary Hay laid before the cabinet dispatches from Minister Conger, which indicated that the situation is very critical. Secretary Long had no late dispatches. The steps that have been taken to reinforce Admiral Kempff were gone over, and it was decided to stand by the policy which has been entered upon of pushing measures for the protection of lives and property of American citizens and of acting independently as far as possible.

It may be that in the accomplishment of this result, the forces of the powers will have to act in unison for the protection of all foreign residents in the disturbed districts, but this is to be the extent of the American activity. It is to be confined solely to the protection and safe-guarding of our own interests and those of our citizens. The Chinese government will be looked to, under the general laws of the comity of nations, to restore order and to make such reparation as is proper. From all political schemes in which any of the powers may become involved the United States is to hold aloof. This is the general policy heretofore outlined and it will be adhered to.

The navy department has cabled directly to Rear Admiral Kempff at Taku, to inform him that marine reinforcements have been ordered to him from Manila.

BRITISH MARINES

DEFEATED BOXERS.

Force of 16 Pursued by Chinese Until Reinforcements Arrived—About 40 Boxers Killed.

LONDON, June 13.—Sixteen British marines, reconnoitering in advance of the international column marching to Pekin, fought about 2,000 Boxers Monday. Most of them were armed with spears and swords. A few had firearms, which they handled awkwardly.

The marines retreated, keeping up a running fight for over a mile and killing between 20 and 30 Boxers.

The Boxers pursued the British for some distance. Then, seeing more marines from the train coming to their assistance, Major Johnson's 16 halted and poured a heavy, continuous fire into the crowd, driving them across the front of the reinforcing blue jackets, who punished the Boxers severely with Maxims.

The Boxers fled and the Europeans, following up their success, cleared out two villages. The total loss of the Boxers is estimated at 40 killed and wounded. Seven of their wounded were attended by British surgeons. The British loss was nothing.

JAP OFFICIAL

KILLED BY CHINESE.

Soldiers of Empress' Guard Murdered Him—Situation Due to Government Treachery.

LONDON, June 13—5:20 a. m.—The Times, in an extra edition, published the following dispatch from Pekin, dated June 12, 2 p. m.:

"The chancellor of the Japanese legation, Sugiyama Akira, while proceeding alone and unprotected on official duty, was brutally murdered by soldiers of Tung Fuh Siang, the favorite bodyguard of the empress, at Manigate (?) railroad station, yesterday."

The foreign reinforcements are daily expected. The present isolated position of Pekin, the destruction of foreign property in the country and the insecurity of life are directly attributable to the treachery of the Chinese government."

White Knocked Out by McGovern.

NEW YORK, June 13.—Terry McGovern fully lived up to his title as feather-weight champion at the Seaside Athletic club, by knocking out Tommy White, the clever Chicago boxer, in

three rounds. The third round was a succession of knock downs for White. After going down for the seventh time, he was so far gone that it was impossible for him to get up again, although he made a game effort.

BOXERS ATTACKED

A CATHOLIC CONVENT.

Officials Evidently Inactive—British Landed More Men at Tien Tsin.

TIEN TSIN, June 13.—One hundred and sixty-three British landed here. An additional 20 British were sent to Fong Shan.

A special train left Tien Tsin for Yang Tsung to bring General Nieh to consult with the viceroy. Telegraphic communication with Pekin was still interrupted.

The Russian warships Petropavlovsky and Komiloff were at Taku Bar, and the Russian torpedo-boats "103" and "107" were in the river Taku. Want of transport prevents the Russians from landing troops. The Russians were very active here.

It was rumored that General Fung Fah Siang, with many thousand troops, is at Feng Tai.

News from Pao Ting Fu was that the Boxers, 6,000 strong, were attacking the Catholic convent there. The situation was critical and the officials were evidently inactive.

The United States warships Nashville and Monocacy were expected at Taku.

BLOEMFONTEIN RETAKEN.

A Boer Official Made Such an Assertion. Also British Defeat at Bloemfontein.

LOURENZO MARQUES, June 13.—The consul for the Transvaal officially announced that the Boers have retaken Bloemfontein. President Steyn, of the Orange Free State, has returned to the capital and reported that the British had sustained a severe defeat at Bloemfontein where there was heavy fighting before Roberts left Johannesburg.

BOERS EVACUATED MAJUSA.

Buller Also Reported Laing's Nek Was Deserted by Them.

LONDON, June 13.—The war office issued the following:

"Buller to the secretary of war:

"JOUBERT'S FARM, June 12—5:05 p. m.—Encamped four miles north of Volksrust. Laing's nek and Majuba were completely evacuated by the Boers last night. General Clery, from Ingogo, is now coming over the nek. I have had to camp here for want of water. A correct list of yesterday's casualties will be sent as soon as received."

CROWN COLONIES IN SOUTH AFRICA.

LONDON, June 13.—It was learned that the government decided upon a plan for the civil settlement of South Africa. The details are kept most secret, but it can safely be said that the Orange river colony and the Transvaal will become crown colonies, the latter probably being renamed the Transvaal colony. Sir Alfred Milner, it is declared, is to be high commissioner in South Africa in spite of the opposition he has incurred.

Asked For a U. S. Cruiser.

WASHINGTON, June 13.—The following dispatch was received at the state department:

THINKING, June 13.

"Secretary of State:

"Large numbers of natives organized secret society halted there. People very apprehensive. No protection. Want cruiser. MARTIN."

Crane's Body to Be Brought Home.

LONDON, June 13.—The body of Stephen Crane, the American novelist, who died June 5 at Baden-Weiler, was brought to London by Mrs. Crane, from which it will be sent to the United States next week. The burial will probably take place at Newark, N. J., where the other members of the Crane family are interred.

American Newspaper Man Honored.

WASHINGTON, June 13.—In recognition of his services to international journalism during the closing days of the Spanish-American war, the French government, upon the recommendation of Ambassador Cambon, conferred membership in the French Academy of Beaux Arts upon Charles T. Thompson, of The Associated Press staff, in this city.

Announced Reciprocity With Portugal.

WASHINGTON, June 13.—The president issued a proclamation formally announcing the establishment of a reciprocity agreement with Portugal.

MUTILATED MONEY.

SAVE THE FRAGMENTS AND UNCLE SAM WILL REDEEM THEM.

Even the Ashes of Burned Bills Are Successfully Handled by His Experts—Skillful Work in the Treasury Redemption Bureau.

One of the most interesting departments in the United States treasury is that devoted to the redemption of mutilated currency. To it are sent all varieties of bills in every conceivable stage of mutilation. It is seldom that the experts cannot decipher the burned crisps or piece together the myriad fragments. The collection is a curious one, changing every day with kaleidoscopic rapidity.

The burning of a note usually brings out its design in a sort of metallic reflect upon its surface, and by means of a glass and other implements and also a full and complete knowledge of the intricate designs, no two denominations being alike, on every note issued their face value is learned with incredible dexterity.

Some arrive in fairly good condition, some shrunken and water soaked, others scorched black and twisted out of shape; many are merely thin, tiny black flakes, and in one case now under consideration the evidence consists of a small handful of black powder, which the affiant swears was \$65, accidentally blown into the fire.

Often the mischief has been done by mice, handfuls of the tiniest of pieces attesting the evil ways of the rodent. Babies are another source of trouble, maniacs, victims of drunken frenzy, plowshares, sawmills—in fact, the strangest and most unheard of accidents are occurring all the time. But in a great majority of cases the money has been burned, for a common practice among people who are their own bankers seems to be the keeping of their funds in unused stoves. A cold day comes, the fire is lighted by some unsuspecting person who "didn't know it was loaded," and the owner suddenly finds that he had money to burn in spite of himself.

In one instance a man having \$7,000 in government bonds, besides notes and gold, kept them in a tomato can which he placed in the elbow of his parlor stove. While he was plowing his fields company arrived, his wife had a fire kindled, and shortly he made the unpleasant discovery that his riches had taken wings. Had he sent the money just as it came from the stove, wrapped in cotton, it might have been saved, but in endeavoring to separate it it became so churnd and ground up that the department was able to identify only about \$2,000 for him.

An old woman who had accumulated about \$600 was one night at her devotions, when the candle in some mysterious manner was overturned in the midst of the money. Now, history does not relate why it was there or whether she was returning thanks or paying a bit of homage to Mammon, but at any rate it was destroyed, and as she threw the ashes away and at the instigation of her friends picked them out again there was only enough left to return about \$100 to her.

But much more fortunate were an old couple in the west. The man had been a soldier, and by the long accumulation of years they had saved a little sum, when one day the wife in going to look at it found that the mice had left only a pile of carefully saved fragments. Almost distracted, she took it to the bank, reporting that the last time she had counted it the sum had been \$275, mostly in tens and twenties. It was sent here, the tiny bits sorted and arranged as only experts can arrange them, and the necessary three-fifths of every note was found. But the best of all was that instead of \$275 it was discovered that the old people's savings amounted to \$350, which amount was finally sent to them, much to their joy.

Of course the greatest precaution is necessary, and the affidavits must leave no doubt as to the utter and entire destruction of the missing parts of the notes. In one case of this kind a farmer sent from Kansas some greenbacks amounting to \$50, only half of each note being intact. The rest, he declared in a strong affidavit, had been destroyed and also stated in what manner, but on consulting the books it was found that one-half the sum had already been paid to another person who had sent the other halves of the notes from another part of the country. Consequently but \$25 was returned to him.

Thereupon the cashier who had

transacted the business for the farmer wrote such an indignant letter, saying the government had impugned the honesty of the claimant and that he would prove him in the right, that the affair was put into the hands of the secret service, the proofs exhibited and the imprudent farmer fined \$1,000 for false swearing.—New York Tribune.

Faith in the Bible.

If our Sunday schools are turned into Bible schools, where the very words of Holy Writ are studied and helps and methods less depended on, those who teach and those who are taught will derive that illumination which ever comes from the entrance of the truth of God. If the whole Church of Christ were to present a united front of such a character instead of one of halting and declining faith in the book they profess to love, an impression might and would be made upon the world. Even were it impossible to induce the visible church to unite in taking such a stand, those who do it would at least be faithful witnesses for the truth, and the result could not be foretold.—Episcopal Recorder.

Soldiers of Empress' Guard Murdered Him—Situation Due to Government Treachery.

LONDON, June 13—5:20 a. m.—The Times, in an extra edition, published the following dispatch from Pekin, dated June 12, 2 p. m.:

"The chancellor of the Japanese legation, Sugiyama Akira, while proceeding alone and unprotected on official duty, was brutally murdered by soldiers of Tung Fuh Siang, the favorite bodyguard of the empress, at Manigate (?) railroad station, yesterday."

The foreign reinforcements are daily expected. The present isolated position of Pekin, the destruction of foreign property in the country and the insecurity of life are directly attributable to the treachery of the Chinese government."

White Knocked Out by McGovern.

NEW YORK, June 13.—Terry McGovern fully lived up to his title as featherweight champion at the Seaside Athletic club, by knocking out Tommy White, the clever Chicago boxer, in

three rounds. The third round was a succession of knock downs for White. After going down for the seventh time, he was so far gone that it was impossible for him to get up again, although he made a game effort.

BOXERS ATTACKED

A CATHOLIC CONVENT.

Officials Evidently Inactive—British Landed More Men at Tien Tsin.

TIEN TSIN, June 13.—One hundred and sixty-three British landed here. An additional 20 British were sent to Feng Shan.

A special train left Tien Tsin for Yang Tsung to bring General Nieh to consult with the viceroy.

Telegraphic communication with Pekin was still interrupted.

The Russian warships Petropavlovsky and Komiloff were at Taku Bar, and the Russian torpedoboats "103" and "107" were in the river Taku. Want of transport prevents the Russians from landing troops. The Russians were very active here.

It was rumored that General Fung Fah Siang, with many thousand troops, is at Feng Tai.

News from Pao Ting Fu was that the Boxers, 6,000 strong, were attacking the Catholic convent there. The situation was critical and the officials were evidently inactive.

The United States warships Nashville and Monocacy were expected at Taku.

BLOEMFONTEIN RETAKEN.

A Boer Official Made Such an Assertion. Also British Defeat at Bloemfontein.

LORENZO MARQUES, June 13.—The consul for the Transvaal officially announced that the Boers have retaken Bloemfontein. President Steyn, of the Orange Free State, has returned to the capital and reported that the British had sustained a severe defeat at Bloemfontein where there was heavy fighting before Roberts left Johannesburg.

BOERS EVACUATED MAJUSA.

Buller Also Reported Laing's Nek Was Deserted by Them.

LONDON, June 13.—The war office issued the following:

"Buller to the secretary of war:

"JOUBERT'S FARM, June 12—5:05 p. m.—Encamped four miles north of Volkstrust. Laing's nek and Majuba were completely evacuated by the Boers last night. General Clery, from Ingogo, is now coming over the nek. I have had to camp here for want of water. A correct list of yesterday's casualties will be sent as soon as received."

CROWN COLONIES IN SOUTH AFRICA.

LONDON, June 13.—It was learned that the government decided upon a plan for the civil settlement of South Africa. The details are kept most secret, but it can safely be said that the Orange river colony and the Transvaal will become crown colonies, the latter probably being renamed the Transvaal colony. Sir Alfred Milner, it is declared, is to be high commissioner in South Africa in spite of the opposition he has incurred.

Asked For a U. S. Cruiser.

WASHINGTON, June 13.—The following dispatch was received at the state department:

THINKING, June 13.

"Secretary of State:

"Large numbers of natives organized secret society halted there. People very apprehensive. No protection. Want cruiser." MARTIN."

Thompson, of The Associated Press staff, in this city.

Announced Reciprocity With Portugal.

MUTILATED MONEY.

SAVE THE FRAGMENTS AND UNCLE SAM WILL REDEEM THEM.

EVEN THE ASHES OF BURNED BILLS ARE SUCCESSFULLY HANDLED BY HIS EXPERTS—SKILLFUL WORK IN THE TREASURY REDEMPTION BUREAU.

One of the most interesting departments in the United States treasury is that devoted to the redemption of mutilated currency. To it are sent all varieties of bills in every conceivable stage of mutilation. It is seldom that the experts cannot decipher the burned crisps or piece together the myriad fragments. The collection is a curious one, changing every day with kaleidoscopic rapidity.

The burning of a note usually brings out its design in a sort of metallic relief upon its surface, and by means of a glass and other implements and also a full and complete knowledge of the intricate designs, no two denominations being alike, on every note issued their face value is learned with incredible dexterity.

Some arrive in fairly good condition, some shrunken and water soaked, others scorched black and twisted out of shape; many are merely thin, tiny black flakes, and in one case now under consideration the evidence consists of a small handful of black powder, which the affiant swears was \$65, accidentally blown into the fire.

Often the mischief has been done by mice, handfuls of the tiniest of pieces attesting the evil ways of the rodent. Babies are another source of trouble, maniacs, victims of drunken frenzy, plowshares, sawmills—in fact, the strangest and most unheard of accidents are occurring all the time. But in a great majority of cases the money has been burned, for a common practice among people who are their own bankers seems to be the keeping of their funds in unused stoves. A cold day comes, the fire is lighted by some unsuspecting person who "didn't know it was loaded," and the owner suddenly finds that he had money to burn in spite of himself.

In one instance a man having \$7,000 in government bonds, besides notes and gold, kept them in a tomato can which he placed in the elbow of his parlor stove. While he was plowing his fields company arrived, his wife had a fire kindled, and shortly he made the unpleasant discovery that his riches had taken wings. Had he sent the money just as it came from the stove, wrapped in cotton, it might have been saved, but in endeavoring to separate it it became so churned and ground up that the department was able to identify only about \$2,000 for him.

An old woman who had accumulated about \$600 was one night at her devotions, when the candle in some mysterious manner was overturned in the midst of the money. Now, history does not relate why it was there or whether she was returning thanks or paying a bit of homage to Mammon, but at any rate it was destroyed, and as she threw the ashes away and at the instigation of her friends picked them out again there was only enough left to return about \$100 to her.

But much more fortunate were an old couple in the west. The man had been a soldier, and by the long accumulation of years they had saved a little sum, when one day the wife in going to look at it found that the mice had left only a pile of carefully sawed fragments. Almost distracted, she took it to the bank, reporting that the last time she had counted it the sum had been \$275, mostly in tens and twenties. It was sent here, the tiny bits sorted and arranged as only experts can arrange them, and the necessary three-fifths of every note was found. But the best of all was that instead of \$275 it was discovered that the old people's savings amounted to \$350, which amount was finally sent to them, much to their joy.

Of course the greatest precaution is necessary, and the affidavits must leave no doubt as to the utter and entire destruction of the missing parts of the notes. In one case of this kind a farmer sent from Kansas some greenbacks amounting to \$50, only half of each note being intact. The rest, he declared in a strong affidavit, had been destroyed and also stated in what manner, but on consulting the books it was found that one-half the sum had already been paid to another person who had sent the other halves of the notes from another part of the country. Consequently but \$25 was returned to him.

Thereupon the cashier who had transacted the business for the farmer wrote such an indignant letter, saying the government had impugned the honesty of the claimant and that he would prove him in the right, that the affair was put into the hands of the secret service, the proofs exhibited and the imprudent farmer fined \$1,000 for false swearing.—New York Tribune.

Faith in the Bible.

If our Sunday schools are turned into Bible schools, where the very words of Holy Writ are studied and helps and methods less depended on, those who teach and those who are taught will derive that illumination which ever comes from the entrance of the truth of God. If the whole Church of Christ were to present a united front of such a character instead of one of halting and declining faith in the book they profess to love, an impression might and would be made upon the world. Even were it impossible to induce the visible church to unite in taking such a stand, those who do it would at least be faithful witnesses for the truth, and the result could not be foretold.—Episcopal Recorder.

The Drunkard's Lament.
I've drank to the dregs of this liquid of sin,
Of devil's broth known as whisky and gin.

As the drunkard dies, with rum laden breath.
The open saloon has rung out my knell,
I'm straight on the road to the drunkard's hell.

Origin of the 'Boxers.'

London Mail.

Since the murder of Mr. Brooks, who was hacked to death in a Chinese village, many people have asked, "Who are the Boxers?" The Chinese society of Boxers constitutes in reality a great clan of murderers, estimated to contain over 11,000,000 semi-barbarians, well organized, well armed, and as savage in their fanaticism as the Sudan dervishes.

The society was originally formed with the benevolent intention of protecting honest men in China from bandits. It was called To Tao Hwri, which means the Society of the Great Sword, a title which seems to have been changed at a comparatively recent date to the more familiar name which so often appears in our newspapers just now.

When and where the clan originated is not certain. The natives refer to it as an "ancient" society, but that may mean ten years or one hundred. It is agreed that at first its principles were laudable and its work good, but as it became more powerful and increased in numbers many dishonest and designing persons entered it for the prestige and protection it accorded just as dishonest and designing persons ally themselves with influential bodies in other lands today.

These men proved a disturbing element and in many cases directed the efforts of the society against their personal enemies whom they represented as bandits and lawless persons. Terrified by persecution, the innocent victims looked around for protection, and discovered it in the Christian missionaries. It is said that they professed conversion. At any rate, it seems to be clear that the missionaries succeeded in protecting them, and thus intensified the feeling which has always existed in China against the Christian evangelists.

In many districts of Shantung countless Christian homes have been destroyed. German Protestants and German Catholics, English Churchmen and Congregationalists have been alike the victims of shocking outrages.

TERMS OF CONVICTS.

How Inmates of the Ohio Penitentiary Have Their Time Limits Cut Down.

When a convicted man is sentenced to the penitentiary, he sometimes receives a long term of years, but this is not always so severe to him as the impression which is conveyed to the spectators in the court room.

Through the law in Ohio, a prisoner, by good conduct, shortens his term of servitude to an appreciable degree, and the sentence which is usually meted out to offenders, therefore, is not so great a punishment after all. The short term schedule is as follows:

Sentence.	Short Term.
1 year	10 months
2 years	1 year 7 months
3 years	2 years 2 months
4 years	2 years 9 months
5 years	3 years 4 months
6 years	3 years 9 months
7 years	4 years 5 months
8 years	5 years 1 month
9 years	5 years 8 months
10 years	6 years 4 months
15 years	9 years 6 months
20 years	12 years 8 months

ONLY A LAUGH.

Only a laugh, but the joy of the hours in it, Dropping so blithely from out of the gloom, Down from the casement that has the red flowers in it, Flooding with sunshine my poor little room.

Only a laugh, but I know well whose choice it is; Oh, I can guess whose lips that can chaff, Whose is the smiling mouth, whose bubbling voice it is, Putting such perfume in only a laugh!

Only a laugh! My lone life is so shadowy, Tinged with the darkness that solitude grows, Most of the brightness missed, most of its glad away, Most of its tenderness chilled by the snows.

Only a laugh, but so much of the gay in it! Oh, were there love 'twould be sweeter by half! I could forget that my hair has its gray in it Were it for me more than—only a laugh! —New York Press.

WHERE PRICES ARE STEADY.

The Mountain Dealer Objected to a Fall For Religious Reasons.

"That reminds me indirectly," said the other drummer, "of a yarn I heard lately over in South Carolina told at the expense of a peculiarly guileless old chap who keeps a little crossroads store up in the mountains. Everybody wears boots in that part of the country, and, as the story goes, the old fellow had been buying his stock for many years of a manufacturer in a big city not 1,000 miles away. He paid \$6 a pair for his boots when he first went into business, and the maker had continued charging him the same figure year after year regardless of the fact that the market price had been steadily going down. The old storekeeper, secluded from the world in his mountain home, never dreamed that he was being fleeced and took pride in paying his bills with clocklike punctuality.

"At last, when that grade of boots was quoted at \$2.50, the manufacturer's conscience smote him, and he decided to make amends. So he wrote the country merchant, saying that there had been a considerable decrease in the price of leather, and he was glad to state that he would be able to let him have the last lot of boots he ordered at \$4 a pair. This, he added, was a special low rate, made on account of personal esteem and the fact that he had been a regular customer for such a long period. A few days afterward the conscientious manufacturer was amazed to receive a letter running something like this:

"Dear Sir—It's mighty kind of you all to offer to let me have them boots at \$4, but I wish you would please keep the price the same as what it was before. I have been selling them boots for \$10 a pair for 12 years, and, being a deacon in the church, I don't think it would be right to take no stronger profit. So no more at present from yours truly,

PETER DOE."

MARRIED the Day They Met.

Horace Greeley and Mary Young Cheney were married the first day they met. They had corresponded for some time, a common friend, who was something of a matchmaker, having brought this about. She was all his fancy painted her, but she was much disappointed in his appearance, so much so that when he appeared before her, having proposed and been accepted by letter, she frankly told him that, although she married him, she was not in love with him. Their married life was long and happy, and the loss of his wife was a blow which Greeley did not long survive.

IN THE LEAD !!

At Murphy's store as heretofore He continues in the lead,
And the streams that flow within his door
Return again to purchase more,
Of things they daily need;
As it is his pleasure and delight
To cater to your appetite.
There are many men of many minds,
And many coffeees of many climes.
Some are better and some are worse,
Some a blessing and some a curse;
The kind of coffee he always recommends
Is the justly celebrated San Marto Blends,
Buy a pound and it home with you take
It will remind you of the kind
Like Mother used to make.

Origin of the "Boxers."

London Mail.

Since the murder of Mr. Brooks, who was hacked to death in a Chinese village, many people have asked, "Who are the Boxers?" The Chinese society of Boxers constitutes in reality a great clan of murderers, estimated to contain over 11,000,000 semi-barbarians, well organized, well armed, and as savage in their fanaticism as the Sudan dervishes.

The society was originally formed with the benevolent intention of protecting honest men in China from bandits. It was called To Tao Hwri, which means the Society of the Great Sword, a title which seems to have been changed at a comparatively recent date to the more familiar name which so often appears in our newspapers just now.

When and where the clan originated is not certain. The natives refer to it as an "ancient" society, but that may mean ten years or one hundred. It is agreed that at first its principles were laudable and its work good, but as it became more powerful and increased in numbers many dishonest and designing persons entered it for the prestige and protection it accorded just as dishonest and designing persons ally themselves with influential bodies in other lands today.

These men proved a disturbing element and in many cases directed the efforts of the society against their personal enemies whom they represented as bandits and lawless persons. Terrified by persecution, the innocent victims looked around for protection, and discovered it in the Christian missionaries. It is said that they professed conversion. At any rate, it seems to be clear that the missionaries succeeded in protecting them, and thus intensified the feeling which has always existed in China against the Christian evangelists.

In many districts of Shantung countless Christian homes have been destroyed. German Protestants and German Catholics, English Churchmen and Congregationalists have been alike the victims of shocking outrages.

TERMS OF CONVICTS.

How Inmates of the Ohio Penitentiary Have Their Time Limits Cut Down.

When a convicted man is sentenced to the penitentiary, he sometimes receives a long term of years, but this is not always so severe to him as the impression which is conveyed to the spectators in the court room.

Through the law in Ohio, a prisoner, by good conduct, shortens his term of servitude to an appreciable degree, and the sentence which is usually meted out to offenders, therefore, is not so great a punishment after all.

The short term schedule is as follows:

Sentence.	Short Term.
1 year	10 months
2 years	1 year 7 months
3 years	2 years 2 months
4 years	2 years 9 months
5 years	3 years 4 months
6 years	3 years 9 months
7 years	4 years 5 months
8 years	5 years 1 month
9 years	5 years 8 months
10 years	6 years 4 months
15 years	9 years 6 months
20 years	12 years 8 months

ONLY A LAUGH.

Only a laugh, but the joy of the hours in it, Dropping so blithely from out of the gloom, Down from the casement that has the red flowers in it, Flooding with sunshine my poor little room.

Only a laugh, but I know well whose choice it is; Oh, I can guess whose lips that can chaff, Whose is the smiling mouth, whose bubbling voice it is, Putting such perfume in only a laugh!

Only a laugh! My lone life is so shadowy, Tinged with the darkness that solitude grows, Most of the brightness missed, most of its glad away, Most of its tenderness chilled by the snows.

Only a laugh, but so much of the gay in it! Oh, were there love 'twould be sweeter by half! I could forget that my hair has its gray in it Were it for me more than—only a laugh! —New York Press.

WHERE PRICES ARE STEADY.

The Mountain Dealer Objected to a Fall For Religious Reasons.

"That reminds me indirectly," said the other drummer, "of a yarn I heard lately over in South Carolina told at the expense of a peculiarly guileless old chap who keeps a little crossroads store up in the mountains. Everybody wears boots in that part of the country, and, as the story goes, the old fellow had been buying his stock for many years of a manufacturer in a big city not 1,000 miles away. He paid \$6 a pair for his boots when he first went into business, and the maker had continued charging him the same figure year after year regardless of the fact that the market price had been steadily going down. The old storekeeper, secluded from the world in his mountain home, never dreamed that he was being fleeced and took pride in paying his bills with clocklike punctuality.

"At last, when that grade of boots was quoted at \$2.50, the manufacturer's conscience smote him, and he decided to make amends. So he wrote the country merchant, saying that there had been a considerable decrease in the price of leather, and he was glad to state that he would be able to let him have the last lot of boots he ordered at \$4 a pair. This, he added, was a special low rate, made on account of personal esteem and the fact that he had been a regular customer for such a long period. A few days afterward the conscientious manufacturer was amazed to receive a letter running something like this:

"Dear Sir—It's mighty kind of you all to offer to let me have them boots at \$4, but I wish you would please keep the price the same as what it was before. I have been selling them boots for \$10 a pair for 12 years, and, being a deacon in the church, I don't think it would be right to take no stronger profit. So no more at present from yours truly,

PETER DOE."

Married the Day They Met.

Horace Greeley and Mary Young Cheney were married the first day they met. They had corresponded for some time, a common friend, who was something of a matchmaker, having brought this about. She was all his fancy painted her, but she was much disappointed in his appearance, so much so that when he appeared before her, having proposed and been accepted by letter, she frankly told him that, although she married him, she was not in love with him. Their married life was long and happy, and the loss of his wife was a blow which Greeley did not long survive.
